Standard Plan Example

6.0 m x 3.0 m From **\$65,000** incl. gst
10.5 m x 5.0 m From **\$115,000** incl. gst

ABOUT OUR CHALET

Built on a single chassis the Leisurebuilt Chalet series offers the ideal balance between size and transportability. Over the years Leisurebuilt have continued to refine and enhance our design and manufacturing processes, combining to make the most robust and functional product on the transportable market today. Arriving at your site complete, to your specifications, our installation team provide a turnkey service, usually within a single day.

Our designs have originated from stretching the traditional caravan rather than shrinking a conventional house. This concept allows us to provide the optimum space and functionality where it is most needed while still allowing sufficient space in those areas where minimal time is spent.

Perfect as the beach bach your Leisurebuilt Chalet is also ideal as a second dwelling on your inner city section or your farm or lifestyle block. All Leisurebuilt products are building code compliant, constructed using only high quality components for ultimate durability.

Chalet dimensions can range typically from around 6.0 x 3.0 metres to 10.5 x 5 metres.

All pricing excludes the cost of transport to your site. Pricing includes our standard installation on your level site. All prices are subject to Leisurebuilt standard terms and conditions of trade.
