

Dear Designer,

Provided in this folder are pieces to begin work on designing our company's website. Over The Top is a Tech/Digital Marketing Agency whose expertise is franchise marketing.

Our website is overthetop.com. On the live homepage we have logos of brands that work or have worked with us and a couple of testimonials. Please use those in the design where necessary.

*The homepage copy document (REVISED-HomePage_OTT) is important. This website copy was put together by a marketing firm we hired and the design should work seamlessly with the copy and design notes incorporated there.

Good luck!
