

A PLUGGED OR DAMAGED CULVERT CAN HAVE SEVERE AND DESTRUCTIVE CONSEQUENCES.

FLOODING,  
WASHOUTS,  
DAMAGE TO PROPERTY  
& INFRASTRUCTURE  
AND PERSONAL INJURY.

Replacement is costly, inconvenient, time-consuming, potentially unsafe and leaves long lasting scars on our road surfaces.

Hand-digging, high pressure water jets, or vacuum trucks are limited in their effectiveness.

By working with skilled, highly trained, and licensed contractors, we are now able to offer this critical service right across the country.

- GOVERNMENT TRANSPORTATION AGENCIES
- RAILROAD COMPANIES, AND
- GENERAL CONTRACTORS

are all examples of organizations that will reap the benefits of our culvert cleaning services.

safe, efficient, clean...

**AVERTEX** Culvert Rehab's PATENTED technique utilizes HORIZONTAL DIRECTIONAL DRILLING (HDD) technology. HDD enables remote access to problem areas as well as the manipulation of the tools in confined spaces.

OUR PATENTED TECHNIQUE IS...

- SAFE,
- HIGHLY EFFECTIVE,
- LESS INVASIVE,
- MINIMIZES DAMAGE TO THE CULVERT, THE WORKSITE & SURROUNDING ENVIRONMENT.
