*The solution to bone marrow donor shortages.*

## Overview

---

Hemeos believes that all bone marrow transplant patients deserve a perfect donor match delivered on time at an affordable price. To this end, we are committed to building a world class registry to aid Transplant Centers in treating their ethnic minority patients. Hemeos harnesses technology to target, recruit, and maintain active donors with unprecedented donor follow through rates. The result is a highly efficient transplant donor solution that meets the needs of Transplant Centers to find ideal matches for their critically under-serviced patients.

As a total transplant procurement solution, Hemeos vertically integrates as a registry and donation center to maximize efficiency and provide operational excellence to deliver marrow/PBSCs on time - at industry leading prices. Through our standalone software to identify donors and track the donation progress coupled with 24/7 access donation coordinators, Hemeos strives to provide customer service excellence second to none.
