

ABOUT US AND CONTACT PAGE TO BE LINKED FROM ALL BUSINESS.

Whether your was built 3 years or 30 years old, the odds are, we have new technics today that can help improve your comfort and your energy efficiency. Bremen Solutions offers the Bremen knowledge and experience in energy efficiency/building science to homeowners of existing houses. By using the same diagnostic testing equipment used in new construction, information can be gathered to determine the most cost efficient method to making existing homes more comfortable and more energy efficient. Taking today's technology to existing home, Bremen Solutions offers "Comprehensive Energy Retrofit." For more information about energy efficiency improvements for existing homes go to BremenSolutions.com.

About US

Bremen Inc. was established in 1995 by Robert (Bob) Eipert and Mary Eipert. Bremen has built high performance houses over 15 successful years. By using the most up-to-date building science technology Bremen, Bob Eipert, Builder homes are known for their comfortable and energy efficiency.

(LINK TO BREMEN SITE) Bremen LOGO

In an effort to help other contractors build better homes, Bob became a certified HERS rater with RESNET in 2008 and started Bremen Energy Auditors. Bremen Energy Auditors has assisted hundreds of builders by testing and verifying over 1,000 homes to meet the higher energy guidelines of the 2009 IECC (International Energy Code Compliance).
