

the future  
of work  
is here!

an online ecosystem changing all the rules of recruiting contingent workforce

# Available, Quality Talent on Demand

**lightsapp** – transforming the traditional recruitment paradigm, creating a transparent, level playing field, enabling employers to source the right qualified contractors at the right time and negotiate directly with them, eliminating the reliance on antiquated agency model, saving time and cost!

**lightsapp** – helps professional contractors maximise their earning potential, by minimizing idle time between gigs using the availability feature. This connecting platform will match the right jobs at the right time – just like your own personal secretary answering the call of opportunity at all times!
