

take the words “RIDE REBUILD REPEAT” move them to the bottom of page.

### What We do...

Each year Project ReCycle reaches out to the community to raise the funds necessary to help over 1,500 children strive for success. It is our commitment to keep our costs low and opportunities for children high, and that is where we need your help. A \$50 sponsorship provides a child with a bicycle, helmet, lock, and the opportunity to achieve success and gain confidence in their abilities. With our Smart Start Program, the children have achieved an extra source of funding in sponsorship, grants and support to meet these demands. However, the financial gap to fill the need of safe bicycles for these kids is growing. Other sponsor opportunities available. Please ask us about Corporate, monthly and one-time individual donations available.

move “what we do” to top instead of “about us”. move “About us” to second page. Move “get involved “ to front page bottom. Move our success to front page below “what we do”

### Our Success...
