The Exfoliating Cleanser's advanced formula unclogs pores while maintaining oil levels keeping your skin fresh all day. Hello clean confident skin!

Acne Cream

The Daisy Acne Cream is scientifically formulated to penetrate deep into your pores to kill acne bacteria and prevent future breakouts from forming. This powerful dose of acne medication stimulates new cellular growth while removing past acne marks revealing youthful skin. Begin seeing results in as little as 48 hours.

Sensitive Exfoliating Cleanser:

Wash your skin comfortably with this soft-acting cleanser made with concentrated salicylic acid to remove acne bacteria while being gentle on the skin for sensitive skin types. This non-irritating wash renews your skin while removing 99.9% of all surface bacteria for fresh confident skin.

Sensitive Acne Cream

If you are allergic to benzoyl peroxide or have rosacea the Sensitive Acne Cream was formulated just for you. Its gentle on the skin while packs a powerful punch when fighting acne bacteria. Its fast-acting formula reduces redness and the appearance of rosacea within hours of application. The sensitive acne cream restores cells for a more radiant look.

How to apply the Daisy Acne System for Normal/Sensitive Skin:

1. Each morning/night wash very gently with your Exfoliating Cleanser. Apply 2-3 pumps of the cleanser in the palm of your hands and mix with water. Gently go over your skin twice using your hands, then wash the cleanser off with a lot of water. (Don't leave the cleanser on your skin, wash it off immediately.)
2. Use a clean towel to dry your skin after using your Exfoliating Cleanser.
3. Next spot treat with your Acne Cream in the morning for the first week after using the Exfoliating Cleanser. (Avoid applying the Acne Cream anywhere near your eyes. Even if you have breakouts near your eyes, don't apply any cream around the eye area.)
4. When spot treating with the Acne Cream be sure to pad the cream on. This allows the cream to penetrate deep into your pores. (Don't rub the cream in.)
5. By week two start use both the Exfoliating wash and Acne cream twice a day morning/night.
6. Continue this until all acne bacteria is cleared.

For Best Results

- Make-up! If you are acne prone your make-up could be the cause of your breakouts. Give yourself a break from make-up for the first 2 weeks to allow the cream to penetrate into your pores.
- If dryness occurs please don't use any moisturizers, simply wash with water and take your usage of the cream to once every other day.
- If you work out during the day, it's best to apply your cream at night. After each workout be sure to cleanse your skin with the Exfoliating Cleanser to remove all bacteria.

Daisy Skin Lightening System: The Daisy Skin Lightening system targets, corrects, and helps prevent hyperpigmentation to promote a radiant, even skin tone. It penetrates below the surface to attack production of pigment at the source while repairing the skin's melanin production naturally leaving you with a beautiful even skin complexion.

Lightening #1

Lightening #1 targets, corrects, and helps prevent hyperpigmentation to promote a radiant, even skin tone. It stimulates collagen production and enhances faster cell renewal to minimize the appearance of fine lines and wrinkles. Each application bursts with essential vitamins to brighten your skin while protecting it from environmental agents.

Lightening #2

This powerful lightening cream penetrates below the surface to attack production of pigment at the source, targeting mild to severe discoloration from sun damage. Infused with vitamins, essential oils, and sunscreen the Daisy Lightening #2 will brighten, tighten, and protect your skin. This unique formulation soothes the skin while removing unwanted dark spots and discolored areas on the face/body. An essential cream for anyone who is looking to help maintain a healthy youthful glow.

How to apply the Daisy Skin Lightning System (Lightning #1):

1. Each morning/night wash very gently with your Sensitive Cleanser. Apply 2-3 pumps of the cleanser in the palm of your hands and mix with water. Gently go over your skin twice using your hands, then wash the cleanser off with a lot of water. (Don't leave the cleanser on your skin, wash it off immediately.)
2. Use a clean towel to dry your skin after using your Daisy Sensitive Cleanser.
3. Next spot treat your dark spots in the afternoon for the first month after using the Sensitive Cleanser. Preferable time of application is 3:30 PM. Leave lightning cream on all afternoon and through the evening.
4. When spot treating with the Lightning Cream #1 be sure to pad the cream on. This allows the cream to penetrate deep into your pores. (Don't rub the cream in.)
5. Continue this routine until the Lightning #1 finishes, then proceed with the Lightning #2.

Lightning #2:

1. Each morning/night wash very gently with your Sensitive Cleanser. Apply 2-3 pumps of the cleanser in the palm of your hands and mix with water. Gently go over your skin twice using your hands, then wash the cleanser off with a lot of water. (Don't leave the cleanser on your skin, wash it off immediately.)
2. Use a clean towel to dry your skin after using your Daisy Sensitive Cleanser.
3. Next begin by padding on the Lightning #2 all over skin, NOT just on the dark spots. The Lightning #2 is meant to even out the entire tone of your skin.
4. Repeat this process morning and night.
5. After desired results are achieved maintain your new radiant bright skin with the Lightning #2

Daisy Anti-Aging System-

The Daisy Anti-Aging Kit provides the skin with essential vitamins and omega-fatty acids to restore the skin back 10 years younger. Our luxurious all-natural organic ingredient technology works relentlessly to repair collagen and elasticity production at a cellular level. Each application targets wrinkles, revitalizes cells, and improves the skin's appearance.

Face-Lift Cream

Rejuvenate the skin with a daily dose of intense hydration that helps fill in lines and wrinkles and restores moisture for smoother younger looking skin. This cream is formulated to reduce expression lines by activating the muscle contraction mechanism. Its anti-wrinkle firming power works in the core of each wrinkle to plump, fill and smooth even pronounced wrinkles naturally. Infused with elastin to firm and tighten the skin back to its natural state.

Cells Repair-

Over time, cellular renewal slows and skin loses its ability to retain moisture, causing wrinkles and loss of firmness. The Cell Repair serum acts as a shield against environmental agents locking in moisture while repairing damaged cells. This fast-absorbing serum deeply penetrates skin's surface layers and delivers results fast. Skin feels instantly smoother and hydrated. A true multi-vitamin for your skin.

How to apply the Daisy Anti-Aging System for:

1. Each morning and night after washing your face, begin by applying several drops of the Daisy Cells Repair Serum to your desired areas (face, neck, arms, or chest)
2. Use your fingers to gently massage the serum into the skin and allow 5-10 minutes for penetration.
3. Next apply a small amount of the Face-Lift Cream to your fingers and massage into desired areas of your skin, The Daisy Face-Lift Cream is highly concentrated, so a small amount goes a long way.
4. Leave the Face-Lift Cream on your skin all day until night.
5. Repeat this process an hour before bedtime.

*Make-up can be used over the Daisy Face-Lift Cream, but please allow 10-15 minutes for absorption into skin before applying any make-up.
