

# The following icons are good

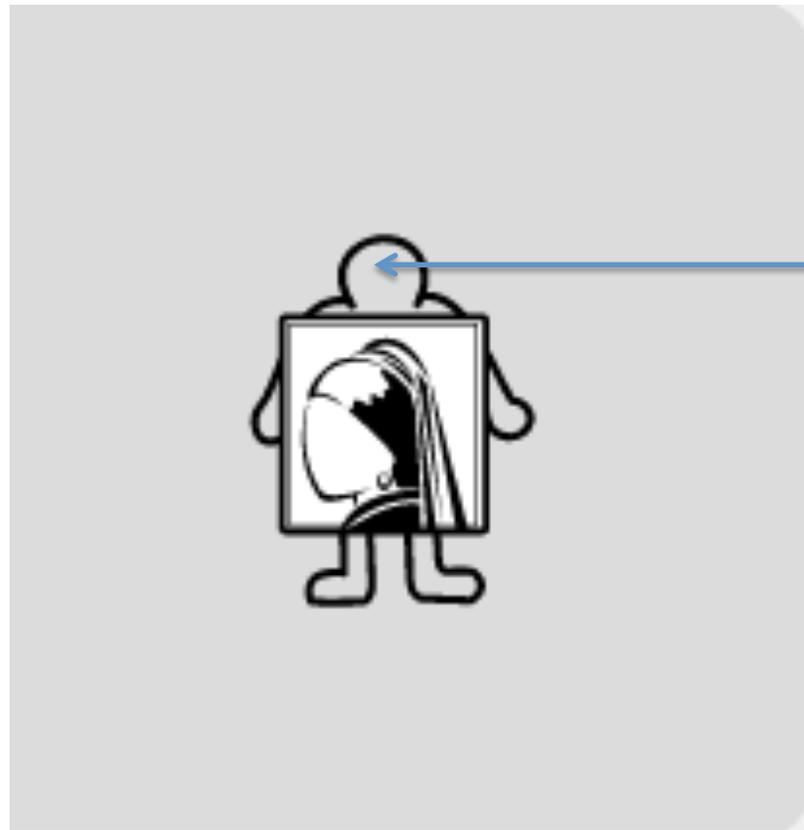

# Make following icons empty please

Correct Empty (NOT WHITE)

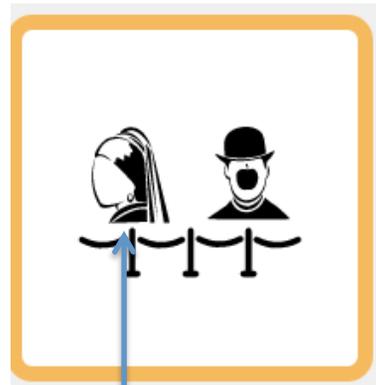

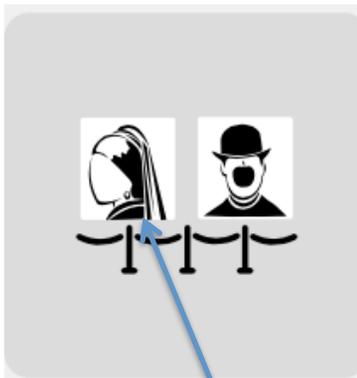

Make these empty as well please, not white

# Curator Icon, man is not coloured white

Man is see through  
not white,  
inconsistent with the  
other icons

# Bug in the Exhibition B – Icon when you convert it into a font at [www.icomoon.io](http://www.icomoon.io) (try the app)

The picture frames disappears when you convert it into an font in Iconic – could you please advise

Strokes get ignored when generating fonts or CSH files.  
You may **convert them to fills** and reimport your SVG(s).

Dismiss

Please see above the guidance note from the icon converter app

Please also provide line-icon- clear versions of the main 10 icons (i.e. versions without any white, just black)
