Want people to see we are servicing the Inland Empire and feature Riverside
Do a “How To Get Started” or “How it Works” on the home page? Or maybe this should be a standalone page?

About Us / Contact
Describes:
1. Philosophy
2. Culture
3. About owners
4. Has clearly defined and above the fold sidebar with contact info and map
Clearly and easily be able to call us send and email.
-Tells people a live person will answer the phone and if not they will receive a call back in minutes
-Show address. This can be tricky with licensing. I'm opening the business with a home off and will also have another location for interviewing, etc. If someone googles the main address I think it will look bad if it shows my home.
