HOOPER & CO

Our Origins

The firm's origins were established in 1994 when Jonathan Hooper commenced public practice in Glenelg. In 2006, the firm relocated to Woodville West as the client base grew.

At Hooper & Co, we understand that the world is constantly changing, however when it comes to values we believe some things should never change.

Values such as trust, integrity and confidentiality are as fundamental to us in our business relationships as they are in our everyday lives.

Client Testimonials

We have been a client of Hooper & Co for twenty years and are very happy with their services. Hooper & Co has been the perfect accounting firm for all our accounting needs, business advice and support. Jon and his team place customer satisfaction at the top of their agenda and back it up with all of the knowledge you could ever need. Any enquiry or concern is swiftly dealt with and the support is second to none.

Over the years Hooper & Co have been an important and stable part of our company and we will enjoy using their services in the future.

Frank, Builder, Gawler

Our newsagency was fortunate to be a client of Hooper & Co for over 20 years. We received amazing support by Jon and his team during a particularly difficult personal time, the sale of our family business. When the sale was complete, considering all the time we were afforded, we were amazed at the very small amount we had to pay for their amazing support.

Marianne, Glenelg
