

33.5"x79"

Template For The Following Items:

Workhorse Economy TBS33WE

34"x84" - Total Printed Area

33.5"x79" - Visible Printed Area

31.5"x77" - Safe Margins

No text should be outside these margins

• **Design banner at 34"x84" (Total Printed Area)**

- Use red line margins as a reference ONLY when designing. This is the area that will remain once the banner is mounted into the banner stand.

• **Do not place any text/logos outside of the green dashed line. This is the Safe Margin.**

Have background color or image run the full 84" length of file. DO NOT leave white space inside margins, it will show when banner is mounted inside the stand.

For best quality output on banners, we recommend that you do not flatten any vector artwork with your background images/photographs/raster artwork. This can cause dulling of colors and unexpected/undesired printing results. Please supply the artwork with layers intact and vector portions of the artwork in vector format. If you need guidance or suggestions on how to correctly set up your artwork, please email or call your designer for further assistance.
