Kindly follow the below revisions, indicated with red squares are the areas requiring adjustment:

#	Proposed Design	Additional Image	Revision Required
1		N/A	PERFECT, NO REVISION REQUIRED
2			Adjust the colors and size of flowers and cloths as in the additional image, also make it short sleeve not long
3			Adjust the logo size and position to be smaller in size as the additional image
4		N/A	PERFECT, NO REVISION REQUIRED
5		N/A	PERFECT, NO REVISION REQUIRED
6			Raise the V-neck higher as shown in the additional image, remove the drum sticks and adjust hand as other members

7		N/A	PERFECT, NO REVISION REQUIRED
8			Adjust the mouth opening. Shown in additional image, it seems there is no upper teeth, can we fix this.
9			Adjust the facial hair (mustache and beard) to look like the on packaging. Also, change cloths to additional photo. Make the color of the logo brown, same position and size as member #3
10			Try to fix the similarity to the additional photo, still I feel she does not look similar The outfit is okay, you can keep as is, just adjust the face
11			Try to fix the similarity to the additional photo, still I feel he does not look similar The outfit is okay, you can keep as is, just adjust the face
12		N/A	PERFECT, NO REVISION REQUIRED
13	Missing member, added but not numbered on the list of references in project Maybe that's why we forgot to work on this.	 Follow the left image, right image for extra info	I believe we missed member #13 If possible to have quick illustration of this member. She was added very late, I believe before you started working on the project.

Needs correct dimensions

Cut Out Layout Example to be made for this packaging

- Can we ensure member #9 is fixed here after being fixed in above image (to match final revision)
- Also can you re-adjust the position of the ornaments as suggested below.
- The sides should also have the same pattern of greenery and snow, as shown above.

- Backside of the packaging should be white with “Merry Christmas” written on it, also the method of cutting the packaging layout as done before should be part of the print.
