Seating ideas

Wooden slat to be translated
into privacy screen at entry

Carpet w/geometric shapes and starburst lay

This hotel will see an infusion of design elements inspired by Frank Lloyd Wright's buildings. It will have an underlying contemporary feel with simple geometric shapes and an emphasis on angles and horizontal lines. Wood accent will be integrated throughout the space as well in furniture. Colors and patterns reminiscent of nature and rich in value will be applied throughout the design.

Areas of interest will be created by layering elements and intersecting forms. This update will welcome the new generations of the business traveler.

Whether you are traveling for business, pleasure or family fun, the Racine Architect is the perfect place. Call Today!
