Wishing to share these results on a much larger scale, Nina has chosen to educate others about this unique cleansing process. Majestic Wellness Academy is dedicated to providing professional, affordable education for those interested in entering the healing arts profession, continuing education or a deeper relationship with Christ. Nina believes that we all have a purpose from God and this is hers; to bless others with her knowledge and training of X'Tract.

Majestic Wellness Academy is a non-profit, comprehensive, wellness educational center focusing on cleansing and weight loss. Our primary concentration is on the lymphatic system through a newer technique termed X'Tract.

The body's lymphatic system is the garbage disposal and a holding tank for toxins and fat. If not released and pumped out of the body, the body's entire system can become lax and sluggish, which may result in sickness and disease. Some of the potential issues can be; edema, weight gain, allergies, lack of energy and many other issues resulting from a blocked system.

As a Certified X'Tract Wellness Facilitator you can educate your clients about this cleansing process to result in a healthier system that has the capability to function properly. Some of the amazing results clients have had with X'Tract have been more energy, weight loss, reduction in cellulite and better circulatory system, improved digestion and immune system.
