

GRSEE CONSULTING WEB SITE

NAME:

A cyber security consulting company needs a redesign web site

Task Description:

We need a new stylish and slick web designs for our Cyber security company (our old <http://grseecon.com>)

GRSee Consulting is comprised of a dedicated team of security experts who each have a wide range of expertise and experience in all areas of information security and Cyber such as APT (Advanced persistent threat) test, penetration test, professional services, Standard & regulation Audit (e.g. ISO27001/2 , PCI DSS, WLA) and security assessment

We are looking for a single page application (architecture) base on WordPress or other easy platform which brings our potential customer overwhelming experience and simple navigation within our new site.

We like to have minimum subject areas in the SPA (one page) as follows:

Header: Logo on the left and mild horizontal menu (without submenus)

1. **Region A:** Random (carousel picture) which fit to our markets
 - a. Each picture should express different aspect
 - i. Cyber
 - ii. Security
 - iii. Standard
 - iv. Professional service
2. **Region B:** Short hot spot (square regions) of our services with 2-3 lines of explanation.
 - a. Each square region will navigate the customer to a separate page or popup with one page explanation of the selected service
 - b. The one page explanation should include a nice large image which designated to the selected service
 - c. The one page explanation should include contact information which customer may leave to contact him with a protentional service.
3. **Region C:** VIDEOE Section
 - a. Wide image full screen width size **or** background video which reference the potential customer to interactive marketing video in YouTube/Vimeo
4. **Region D:** Dynamic bars (running numbers) showing achievements
 - a. Projects complete
 - b. Customer
 - c. Certification
 - d. Pen-tests
5. **Region E:** Our Team
 - a. Short image or cartoon of our team with reference Popup BIO

6. **Region F:** About us:

7. **Region G:** Contact us form (inline)

Footer: Copyrights, social media shortcuts etc...

Note:

We would like to be able to change, remove and add regions

We would like to be able to add and change content easily
