

## Dealers

### HOW WE HELP MOTOR DEALERS

- It's hard to make profit on sale of a car. We help dealers maximize profitability by enabling delivery of after sales services such as repair management and accident replacement vehicles.
- We help motor dealers improve customer service by setting up accident management centers which facilitate interaction between motor dealers and customers after motor vehicle collisions.
- We help motor dealers sell more cars by implementing a program which allows dealers to showcase their new model vehicles to customers who have had their vehicles damaged in car accidents.

### BENEFITS FOR MOTOR DEALERS

- Stand out from competition by providing your customers a 1800 hotline for accident management.
- Earn between \$3,000 and \$10,000.00 every time your customer's have a "not at fault" accident by providing an accident replacement vehicle and earning income from repair management.
- Earn up to \$1,000.00 every time your customer has an "at fault" accident by implementing a repair management program.
- Enjoy awesome customer service satisfaction ratings by offering your customers zero excess smash repairs.
- Sell more cars by offering to buy damaged vehicles from customers in a way which makes a serious profit.

### CASE STUDY

In 2016 a medium sized dealership in Sydney set up an accident management center and told it's customers that all clients are entitled to a free replacement vehicles if they have a "not at fault" accident. Customer

drops off their damaged car at Peugeot and obtains an upgraded, newer vehicle as a replacement car. After repairs are completed, Peugeot generates a rental invoice and uses CARS Claims to collect \$3,000.00 from “at fault” insurer for Peugeot. Customer trades in their older repaired vehicle for the newer, more expensive rental car. Peugeot makes a sale.

- In 2016 a medium sized dealership in Sydney set up an accident management center and told it’s customers that all clients are entitled to a free replacement vehicles if they have a “not at fault” accident.
- After an accident, a customer dropped off their damaged car at the dealership and obtained an upgraded, newer vehicle as a replacement car.
- After repairs are completed, dealer generated a rental invoice and used CARS Claims to collect \$3,000.00 from “at fault” insurer.
- Customer traded in their older repaired vehicle for the newer, more expensive rental car. Dealer made a sale.

## **HOW TO GET STARTED**
