

App Name: **SmarTask**

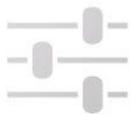

We need modern, elegant, and clean (Material Design) on screens, buttons, and icons.

It is a (smart) task management application which helps the users to get notified and track task completion hassle free; Using notification profiles they create.

The interface of this application should be very simple and color schemes should be contemporary as long as they don't make reading short text hard.

Following Material Design guidelines, the preferred font style is **Roboto**
