

SHURE – Professional Fitness Instructor Microphones

The new SM31FH adds hydrophobic materials to the industry-standard, road-tested Shure SM family in a rugged and durable cardioid condenser microphone. The moisture-repelling cartridge housing protects the microphone and ensures a long lifetime of use, all but eliminating the need to frequently replace typical headsets.

CONNECT YOUR GYM TV AUDIO TO MEMBERS PHONES

Finally gym TV audio systems are compatible with mobile phones opposed to old-fashioned FM wireless radios – after all, who carries a transmitter radio to the gym today !! Simply by installing a 4 or 8 channel WiFi transmitter system, your members can download a free App and stream the audio direct to their phones to listen to their favourite programs. Talk to us today about a quotation and how this can be implemented in your club.

Complete Fitness Studio Audio Systems

Need to update your tired and unreliable audio system – AV Media have a complete range of systems or can customise a package to suit your exact requirements.
