

Bullhead Safety
v.4

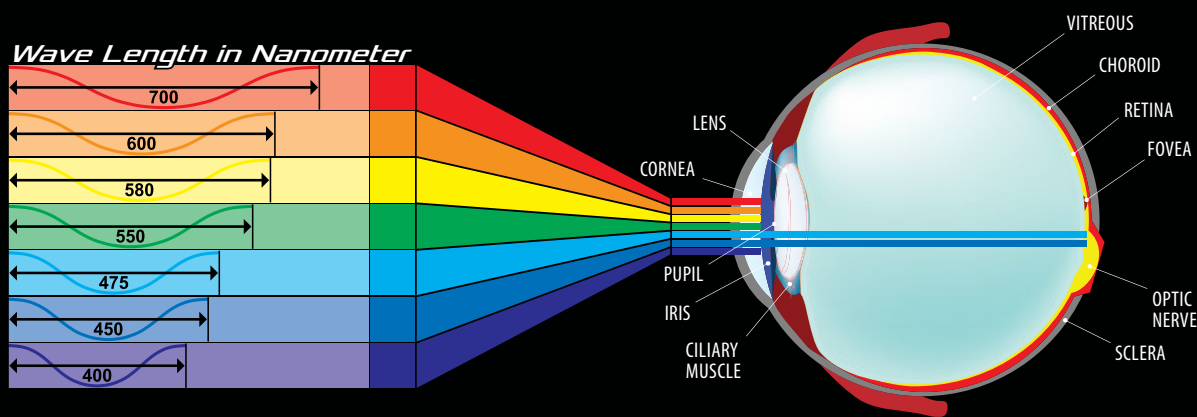

Comfort - Protection - Performance

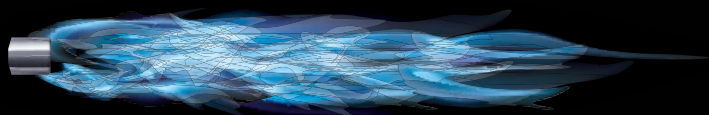

Bullhead Technology

- ▶ Short-wavelength, high-energy blue light rays in the 450 to 495 nanometer range penetrate the light sensitive retina in the back of the eye. The remaining visible light spectrum is filtered at the lens of the eye.
- ▶ Short term exposure to blue light rays causes eye-strain, and long term exposure causes retinal damage which contributes to macular degeneration.
- ▶ Bullhead precision lenses block blue rays, which reduces eye strain, increases visual acuity and protects from the long-term effects of blue light exposure.

- ▶ Bullhead Safety Glasses exceed ANSI Z87.1-2015 standards.
- ▶ Select Bullhead safety glasses also meet the military specification for ballistic fragmentation impact.
- ▶ Ballistic rated safety glasses can withstand up to 6 times more impact energy than those passing ANSI Z87.1 testing

0.15 CALIBER, 5.85 GRAIN CYLINDRICAL PROJECTILE MADE OF COLD ROLLED, ANNEALED STEEL TRAVELING AT 660 FEET PER SECOND.

ANSI Z87.1-2015 Rated

All Bullhead glasses are ANSI Z87+ certified. They have undergone intensive testing including basic and high-impact for lenses and frames, exposure to non-ionizing radiation and chemicals and durability to flammables and corrosion.

MIL-PRF-32432

Select Bullhead styles meet the military specification for ballistic fragmentation impact protection.

Anti-Scratch Hard Coat

All Bullhead lenses are treated with an anti-scratch hard coat for an enhanced, scratch resistant surface.

UV Rated

All Bullhead lenses (including clear) meet or exceed UV protection standards by filtering out 99.9% of dangerous UV light up to 400 nanometers.

Tapered Lens

All Bullhead glasses have tapered lenses which provide 100% visually acuity, eliminating distortion by focusing light directly to the eye for full peripheral clarity. This helps reduce eye fatigue, depth perception issues & headaches.

Ergonomic Fit

All Bullhead safety glasses feature lightweight, flexible frames and temples that contour to the natural slope of the head. This relieves pressure points and discomfort, the top reason that workers neglect to wear safety glasses.

Precision Lens

Bullhead Precision Lenses manage how much blue light reaches the eye, ensuring objects appear sharper and clearer while reducing eyestrain and fatigue.

Polarized

Polarized lenses filter out bent light waves eliminating glare, eye fatigue and decreasing reflection off surfaces such as water, sand, and snow.

Anti-Fog

Bullhead applies a double dip coat of FSI brand hydrophilic Anti-Fog lens treatment to all Anti-Fog lenses. This treatment greatly reduces fog in hot, humid and variable temperature environments.

Variable Tint

Photochromic lenses darken when exposed to ultraviolet light. When the UV light source is removed (for example by walking indoors), the lenses return to original tint.

Flame Resistant Foam Padding

Flame resistant foam padding forms a seal providing protection from dust, airborne particles and orbital impact. There are 2 types: removable (Maki, Dorado, Stinger & Walleye styles) and permanent (Steelhead & Torrent styles).

Reader Style

Reader style lenses feature a magnification diopter positioned at the bottom of the lens. This improves workplace safety by eliminating the need to switch between safety and reading glasses.

Swordfish Readers

In addition to lens correction, Swordfish Readers safety glasses also feature an adjustable nose piece for increased comfort.

BH106110 - 1.0 Diopter
BH106115 - 1.5 Diopter
BH106120 - 2.0 Diopter
BH106125 - 2.5 Diopter

BH106325 - 2.5 Diopter

Lens	Smoke
Frame Color	Matte Black

Frame Width: 132 mm - Weight: 24 Grams - Base Curve: 8

Torrent Readers

The lightweight, contemporary full frame of the Torrent features dual lenses for improved protection and 100% visual correctness.

BH111110 - 1.0 Diopter
BH111115 - 1.5 Diopter
BH111120 - 2.0 Diopter
BH111125 - 2.5 Diopter

Lens	Clear
Frame Color	Crystal Clear

BH113310 - 1.0 Diopter
BH113315 - 1.5 Diopter
BH113320 - 2.0 Diopter
BH113325 - 2.5 Diopter

Lens	Smoke
Frame Color	Crystal Black

Frame Width: 135 mm - Weight: 24 Grams - Base Curve: 10

Swordfish

The Swordfish super sport, lightweight frame features dual 8 base curve lenses for maximum protection, 100% visual acuity and adjustable nose pads for a custom fit.
