Physician Portal

We have 6 services we provide :

- (1) EKG/ Electrocardiography
- (2) 24 Hour ABP Monitor
- (3) 2D Echocardiogram
- (4) Exercise Stress Test
- (5) Holter/Loop Monitor
- (6) Cardiac Consultation

I want the drop down menu to have images of the services we provide along with the definition about them, and the option to add a video clip on what the procedure is for the test.

I want a section somewhere on the website with medical terminology.

> Knowing words involving your condition help comfort and educate.

I can give a list later of some of the words that patients frequently ask about:

Example:

MI/Heart Attack, CP/SOB, Abnormal SE mean, TIA/Stroke, A.fib, Arrhythmia

Who we are? &

Why choose us?

Section for text about this.

Physician section will drop down to show a picture of each of the 6 cardiologists and a short text about their credentials .

Community

What's important for us to provide

Video of employee stating what this is.

Include new upgraded technology and EMR system

Text.

Video of patient testimonial.

Phone and fax numbers + map

Picture of WHI

Drop down of FAQ:

- Hours
- Appointment policy
- Bring to appointment
- Filling prescriptions
- If office is closed

PW:

On the side I would like a section that says:

**What New**

This is where we can update and add things.

Post cardiology news or links
