Index

GRUPO JOCA is a construction group that develops its activity in various business lines with a presence in 5 countries.

The group of companies that forms GRUPO JOCA, is headed by JOCA INGENIERÍA Y CONSTRUCCIONES who have out their activity for the last 35 years within the fields of civil engineering, non residential building, infrastructure maintenance and water treatment. Specifically, it is in this last sector where GRUPO JOCA deploys their greatest ability and expertise counting on a specialised and highly qualified engineering design department which allows the company to take part in the whole life cycle of construction projects from inception to use. Such is the case of the more than one hundred treatment plants carried out.

The main activity of INTERVIAS CONSTRUCCIONES, the GROUP's railway branch, is the assembly of railway superstructures, both tram lines and high speed. We count on heavy machinery to carry out great renovations and assemblies, coupled with the railroad treatment with light plant and the technical and human teams validated by ADIF to operate in their network. With almost 20 years of experience within the railway sector, our company has gained the trust of their clients as a result of the quality and efficiency of the projects undertaken.

Through the subsidiary SACONSA, GRUPO JOCA develops their activity in both urban and environmental protection services. In effect, SACONSA is completely specialised in the integral water cycle, maintenance and running of foul water treatment plants along with potable water plants. Moreover, the company carries out Specialised Electromechanical Installations together with the maintenance of Photovoltaic Facilities.

GR4PT designs, build, maintain and manage gas infrastructures for over 20 years to distribution companies and other industrial clients in Portugal. In recent years the company has commenced a strategy for design, construction and operation of potable water treatment plants supported by the engineering team of the group.

GR4FR is a specialist company in the renovation of gas and electric installations in France. Its High qualification and specialization has allowed in its short life time of 5 years, the consolidation of a position in the Paris market working for the state company Gaz.

For Group diversification purposes and vertical integration of productive activities, ARIDOS NOVELDA deal with the extraction, classification and crushing of aggregates, possessing their own exploitation plant close to Badajoz.

Presently, the GROUP consists of over 300 employees, of which 160 belong to the companies in Spain.

The current shareholders are formed by the board of the Group that during 2013 have carried out the buying of the Group from its former owner. The acquisition has focused solely and exclusively on the companies directly related to construction and engineering in a 'Management Buy Out' excluding properties. The Group have achieved in this way a complete professionalization of all productive and functional areas acquiring an organization that enables new developments in a safe and controlled environment.

WATER
TREATMENT

GRUPO JOCA works from the beginning in the area of Water Engineering covering from the design of projects, the technical assistance and the construction to the operation and maintenance of these infrastructures.

We have developed a hundred Wastewater Treatment Plants, Water Treatment Plants and Desalination Plants in Spain and Portugal, certifying the capacity, quality and know-how in this area.

ALGODOR WATER TREATMENT PLANT. TOLEDO (SPAIN)

ALJARAQUE WATER TREATMENT PLANT. HUELVA (SPAIN)

RIO TUERTO WASTEWATER TREATMENT PLANT. LA RIOJA (SPAIN)

ALANGE WASTEWATER TREATMENT PLANT. BADAJOZ (SPAIN)

MORATALLA WASTEWATER TREATMENT PLANT. MURCIA (SPAIN)

CHARNECA WASTEWATER TREATMENT PLANT. LISBON (PORTUGAL)

SAO MARTINHO DO PORTO WASTEWATER TREATMENT PLANT. ALCOBACA (PORTUGAL)

LAGOA WASTEWATER TREATMENT PLANT. MECO (PORTUGAL)

NINE WASTEWATER TREATMENT PLANTS IN MAXIAL AND ITS REGION. LISBON (PORTUGAL)

DESALINATION PLANT, WATER TREATMENT PLANT AND WASTEWATER TREATMENT PLANT IN LA OLIVA. FUERTEVENTURA (SPAIN)

POZOBLANCO WASTEWATER TREATMENT PLANT. CORDOBA (SPAIN)

ENLARGEMENT OF THE WASTEWATER TREATMENT PLANT AND CONSTRUCTION OF THE STORM TANK IN VILLARUBIA DE LOS OJOS. CIUDAD REAL (SPAIN)

WASTEWATER TREATMENT PLANTS IN MENASALBAS AND ANOTHER FIVE IN TOLEDO. (SPAIN)

AZUAGA WASTEWATER TREATMENT PLANT. BADAJOZ (SPAIN)

PIEDRALAVES WASTEWATER TREATMENT PLANT. AVILA (SPAIN)

ELEVEN WASTEWATER TREATMENT PLANTS IN AREA 09 BELONGING TO THE PURIFICATION SPECIAL PLAN IN ARAGON (SPAIN)

MANCOMUNIDAD DE LA COMARCA DE PONFERRADA ENLARGEMENT AND IMPROVEMENT OF WATER TREATMENT PLANT. LEON (SPAIN)

ENLARGEMENT OF THE QUIJORNA WATER TREATMENT PLANT. MADRID (SPAIN)

SEWERAGE AND WASTEWATER IN THE LAGUNAS DE RUIDERA MUNICIPALITIES (SPAIN)

PRADO DEL REY WASTEWATER TREATMENT PLANT. CADIZ (SPAIN)

WASTEWATER TREATMENT PLANT IN VELADA, MEJORADA- SEGURILLA AND OTHERS. TOLEDO (SPAIN)

VILLANUEVA DE LOS CASTILLEJOS WASTEWATER TREATMENT PLANT. HUELVA (SPAIN)

WASTEWATER TREATMENT PLANT IN ALMONACID DEL MARQUESADO, PUEBLA DE ALMENARA, EL HITO AND OTHERS. CUENCA (SPAIN)

SEWAGE PIPES AND WASTEWATER TREATMENT PLANTS IN NAMBOCA, ALMONACID DE TOLEDO, CHUECA AND VILLAMINAYA. TOLEDO (SPAIN)

ENLARGEMENT OF THE NAVALCARNERO WASTEWATER TREATMENT PLANT. MADRID (SPAIN)

HUÉSCAR WASTEWATER TREATMENT PLANT. GRANADA (SPAIN)

ALCONCHEL WASTEWATER TREATMENT PLANT. BADAJOZ (SPAIN)

CHELES WASTEWATER TREATMENT PLANT. BADAJOZ (SPAIN)

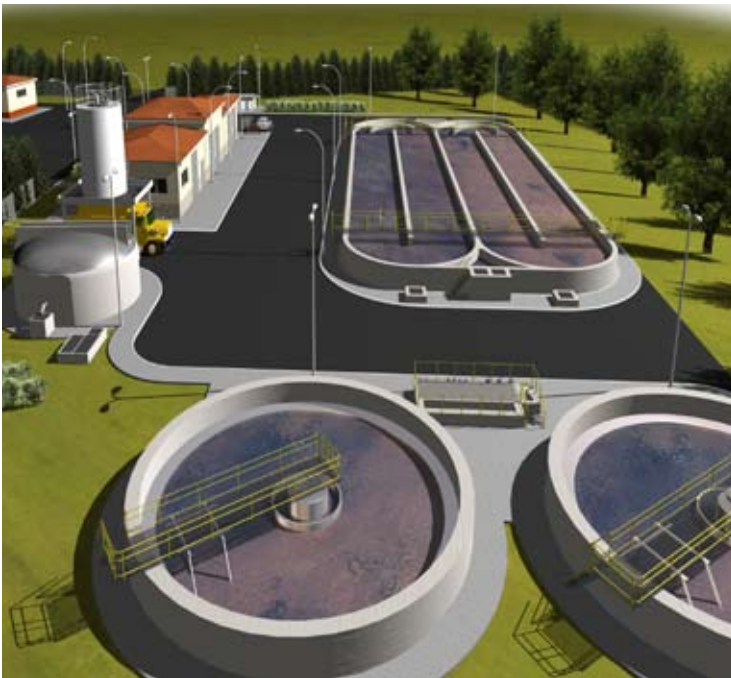

LA ANTILLA WASTEWATER TREATMENT PLANT. HUELVA (SPAIN)

DON BENITO WASTEWATER TREATMENT PLANT. VILLANUEVA DE LA SERENA. BADAJOZ (SPAIN)

ENLARGEMENT OF THE LERMA WASTEWATER TREATMENT PLANT. BURGOS (SPAIN)

ADAPTATION OF THE JEREZ DE LA FRONTERA WASTEWATER TREATMENT PLANT. CADIZ (SPAIN)

WASTEWATER TREATMENT PLANT IN LOS PALACIOS AND VILLAFRANCA. SEVILLA (SPAIN)

CEUTA WASTEWATER TREATMENT PLANT (SPAIN)

OPERATION AND MAINTENANCE OF THE JARANDILLA WASTEWATER TREATMENT PLANT. CÁCERES (SPAIN)

OPERATION AND MAINTENANCE OF THE CHINCHILLA DE MONTE ARAGÓN WASTEWATER TREATMENT PLANT. ALBACETE (SPAIN)

OPERATION AND MAINTENANCE OF THE OSSA DE MONTIEL WASTEWATER TREATMENT PLANT. ALBACETE (SPAIN)

59

OPERATION AND MAINTENANCE OF THE LUQUE WASTEWATER TREATMENT PLANT. CÁCERES (SPAIN)

OPERATION AND MAINTENANCE OF THE VILLACAÑAS WASTEWATER TREATMENT PLANT. TOLEDO (SPAIN)

OPERATION AND MAINTENANCE OF THE MONTEALEGRE DEL CASTILLO WASTEWATER TREATMENT PLANT. ALBACETE (SPAIN)

OPERATION AND MAINTENANCE OF THE VILLARUBIA DE LOS OJOS WASTEWATER TREATMENT PLANT. CIUDAD REAL (SPAIN)

IMPROVEMENT IN THE CONTROL AND QUALITY FOR WATER SUPPLY IN THE OLIVENZA WATER TREATMENT PLANT. VALVERDE DE LEGANÉS. BADAJOZ (SPAIN)

3 NON-RESIDENTIAL BUILDING

GRUPO JOCA has an extensive know-how in non-residential building and develops a wide range of different uses and typologies in this area.

RECYCLING PLANT SOLID WASTE AND LEACHATES IN CÁCERES (SPAIN)

RESTORATION AND ENLARGEMENT MÉRIDA HOSPITAL, BADAJOZ (SPAIN)

HEALTH CENTER LOS FRESNOS. TORREJÓN DE ARDOZ, MADRID (SPAIN)

HOSPITAL FOR PEOPLE WITH RARE DISEASES. BURGOS (SPAIN)
