Our Company

Sin Gee Huat Recycling is one of the leading scrap metal company in the market. We started with a humble beginning and have grown rapidly through the continuous support of our customers and suppliers. Our suppliers include companies from construction, manufacturing, engineering, demolition, shipyards, other recycling yards, foreign customers and the general public.

Sin Gee Huat Recycling mission is to service all our customers, suppliers and our community responsibly, efficiently and in a safe environment whilst maintaining integrity and professionalism.

We constantly seek opportunities to improve on ways to effectively source, process and market scrap for recycling. We actively pursue new relationships and maintain long lasting relationships with our customers and suppliers by providing services that exceed their expectations.

Our Price Assurance

Over the years, we have established very strong relationships with our foreign trading partners to ensure we receive the best value for our materials which translates to **BEST OFFER PRICE FOR YOUR SCRAP!** Our scrap materials is highly sought after in markets like Japan, Korea, China, Indonesia, Taiwan, India and Pakistan.

Our experienced team at Sin Gee Huat engages sophisticated trading technique to effectively manage and attain best value from exchange rate and volatile price movement in the metal market.

Our periodic reviews on our internal processes and structures allow us to operate with the highest efficiency and productivity, which is transferred as cost savings to you.

At Sin Gee Huat, you can be sure to consistently receive the best value for your scrap.

Our Services

Sin Gee Huat Recycling provides excellent service and very competitive pricing for your scrap materials. Some of the services we provide are as follows:

- Roll-off Open Top Container (OTC), small container, customized container for the disposal of your scrap material at your premises. Arrangement can also be made should you require container to be place at other permanent or temporary work site.
- Fast and convenient collection service. We provide regular schedule pick-up or you can just call us when the bin is full!
- Our company provide weighing upon collection with our accurately calibrated crane scale so you always know the weight of your material before leaving the premises.
- If your scrap contain confidential information, or rejected materials that need to be destroy, you are welcome to visit our scrap yard to witness the destruction process. Alternatively, we can send you an image as proof of destruction.
- We provide prompt payment and very competitive price.
- Should you have other requirement on top of your scrap collection, e.g. waste collection, we are please to offer solutions to accommodate to your request.
