

DREW FOOTWEAR

# TOP 20 PERFORMANCE FEATURES

- 1 – **Full-grain Leathers** – tanned without altering the grain side of the skins, leaving a stronger, more natural material
- 2 – **Breathable Leathers** – enables air to pass through the fibers of the leather, helping keep the foot cool and dry, while reducing bacterial growth
- 3 – **Added Depth** – allows the shoe to accommodate appliances or orthotic devices
- 4 – **Wide Shank Area** – extra width across the midfoot area for a more natural, anatomical fit; increases the ability for a shoe to accommodate prescribed orthotics
- 5 – **Extended Heel Counter** – provides superior rear foot control and snug heel fit
- 6 – **Flexible Insole** – full length Texon fiber insole
- 7 – **Heel to Ball Insole** – the supporting base for the extended counter, allowing maximum medial and lateral stability
- 8 – **Moldable Footbed** – molds to the contour of the foot for maximum comfort
- 9 – **Removable Footbed** – can be taken out to replace with a prescribed orthosis
- 10 – **Nonslip Outsoles** – designed to evenly distribute weight for better traction
- 11 – **Lightweight Outsoles** – only polyurethane and E.V.A. outsole materials are used to keep the foot lift load to a minimum
- 12 – **Rocker Toe and Heel Outsole Design** – increases mobility and requires less flexibility through the gait cycle
- 13 – **Performance Lining Materials** – disperse moisture to enable evaporation and prohibit bacterial growth
- 14 – **Padded Comfort Topline** – foam padding incorporated into the topline, tongue and other areas of the shoe to enhance comfort and reduce pressure
- 15 – **Steel Shanks** – many of our styles, heels in particular, still have tempered steel shanks; unlike fiberglass shanks standard in the industry today, steel shanks are ideal for brace applications
- 16 – **Extra-wide, Shape Retaining Toe Box** – keeps the toe area pressure free and comfortable
- 17 – **Easy Closure Systems** – several styles include Velcro or speed laces for easy-on, easy-off fitting
- 18 – **Welt Construction** – many styles are still true Goodyear Welt stitched construction for ultimate stability and quality
- 19 – **Special Care Collection** – shoes specially designed with features for the arthritic or diabetic foot, plantar fasciitis, bunions, hammertoes and more
- 20 – **Extensive Comfort Collection** – offering one of the most extensive size and width selections in the industry
