DREW®

Fit. Comfort. Style.

Being introduced to Drew Shoe last year has finally given me the freedom to be comfortable and free of the pain of new shoe break in, and the many options to be stylish and fashionable... something that I had been searching for a long time. Bought my first pair and as I put them on and started to stand I got so teary-eyed as they FIT. And I was pain-free and stable. I was so happy that I danced around. The next day I wore them to work and was telling everyone. So I got five more pair! Now, I am able to walk pain-free with support and I'm still in-style. I tell everyone and have others now a DREW fan. Try these and I know you will be a fan too. THANK U DREW!

Debbie, Wilkes Barre, PA

Dear Drew,
When I bought my first pair of Drew orthopedic shoes 25 years ago, the salesman said I would never want to wear anything else and he was right. With totally flat feet I would collapse any ordinary shoe within a month or two. Drew's sturdy shank solves that problem hands down. The first few days I wore my shoes my bones creaked and cracked as it all went into proper alignment. And it felt so good! Perfect fit for my narrow feet and serious support for my pancake flat arches. Best of all my feet point straight with the shoes...I no longer waddle like a duck. LOL! Thank you Drew...you changed my life. Now I can walk anywhere. ~Martha
Augusta, ME

I am a cancer survivor who went through 16 surgeries and 9 operating room procedures over 6 & 1/2 years, including 10 very major surgeries. I almost didn't make it twice. After each surgery I would plan my recovery by walking. With a plan like any athlete, I would start out with only able to make it one block and incrementally increasing the distance each day as allowed until I got to 5 or 6 miles per day. After the first couple of surgeries my feet would really start hurting. I found Drew shoes and there it was, the magic I needed to keep going every day to get back into shape! I credit your shoes as part of the reason I came out the other side still alive! Thank you so much. You have no idea how grateful I am.

Sincerely,
Dan- Portland, OR

My Drew walking shoes took me to Machu Picchu and Easter Island this past August. My husband and I had always wanted to go to these two locations. The opportunity to go to both on the same trip came this year and we made plans to go; however, prior to the trip, I started having extremely bad heel pain. I was afraid our trip was going to be ruined. I did some research and found out about Drews. I purchased my walking shoes and with help from my doctor was able to go on a trip of a lifetime. Thanks Drew.

As a 70 year grandmother who still loves to hike the Grand Canyon and the high Colorado Rockies around my home, I cannot tell you how much I love my Drew sneakers with the cushion pads.

Like almost everyone my age, the feet aren't what they were, and walking, not to mention long distance hiking, can be a problem.

Your sneakers are incredibly comfortable, and I can fit my orthotics in them with no trouble. The gripping soles work very well on stony mountain trails, and they breathe so my feet stay cool.

I believe you have extended my hiking years, and for that I thank you!

Dear Drew,

I have persistent plantar fasciitis in both feet. I have to wear both lifts and hard plastic (made to my foot) inserts in my shoes. I had shooting pains up my legs from the pain in my feet with each step I took. Oh, did I mention I am turning 34 tomorrow? I have lived with this crippling foot problem since I was in the military. Unfortunately, the boots were not made for my feet, and the damage was lasting. Finding shoes that fit my lifts, inserts, and my feet (which also happen to be wide) was a nightmare! That was, until I found Drew Shoe. I knew immediately with my first pair these were different. My feet fit even with all the supports added! Drew has walked me through the last 9 years of my life. They walked with me through my undergraduate degree, my teaching career, my engagement, and several moves. On Friday, they walked me across the stage at my Master's graduation ceremony. Drew shoes made my journey possible and I look forward to having them with me for the remainder of my trail. ~

Drew shoes really saved the day! Six months before a four-week long trip to Spain, I tore the tendon in my ankle, which took forever to heal. My doctor said I needed a really good shoes and orthotics, so I tried various brands of shoes. Nothing felt comfortable on my 70 year old wide feet until I slipped on a pair of Drew's Tulips. They were perfect! The two insoles plus my orthotics allowed me to customize the fit throughout our trip and were roomy enough to allow me to wear my bulky ankle brace as needed, I honestly don't believe I would have been able to walk all over Spain without my Drews. They took such a beating, but hubby just polished them and made them look brand new again. I've never had a more comfortable shoe and will purchase only Drews from now on. I only wish I discovered them years ago.

Sincerely, Linda-Santa Barbara, CA

Last Recommendations for Common Foot Problems

WOMEN'S

Pedic 221 & 237 – See Pages 14 and 15

- Added depth combined with broad forepart
- Wide shank area for superior lateral stability
- Excellent for application to treat minor foot conditions
- 6/8 heel height

221 &
237

Pedic 200 – See Page 4

- Snug fitting heel seat
- Short back last
- Excellent for applications to treat minor foot conditions
- 6/8 heel height

200

Pedic 234 – See Pages 5 and 13

- Added depth combined with broad forepart
- Wide base with mid-foot stabilizing shank provide arch support and stability
- Excellent last to accommodate prescribed orthotics
- 8/8 heel height

234

Pedic 80 & 801 – See Pages 6, 7 and 8

- Added depth combined with broad forepart
- Wide shank provides superior lateral stability
- Excellent last to accommodate prescribed orthotics

80 &
801

Pedic 231 – See Page 9

- Added depth combined with broad forepart
- Wide base with mid-foot stabilizing shank provide arch support and stability
- Excellent last to accommodate prescribed orthotics
- 8/8 Heel Height

231

Pedic 101 – See Page 8

- Wide shank area provides superior lateral stability and also makes this last extremely versatile for orthotic applications
- Deep, broad forepart offers maximum capacity

101

Pedic 16 – See Page 17

- Added depth combined with broad forepart
- Wide shank area for superior lateral stability
- Excellent for application to treat minor foot conditions
- 6/8 heel height

16

Pedic 88 – See Pages 12 and 16

- A universal last used in many applications for extreme foot conditions
- Deep, broad, oblique forepart offers more capacity than any of our other women's lasts
- Wide shank area provides superior lateral stability – extremely versatile for orthotic applications
- 8/8 heel height

88

Pedic 46 – See Pages 12 and 16

- Wide shank area provides superior lateral stability and also makes this last extremely versatile for orthotic applications
- Deep, broad, oblique forepart offers maximum capacity
- 6/8 heel height offers excellent balance and weight distribution

46

Pedic 495 – See Pages 12 and 26 (Women's & Men's)

- Added depth combined with broad forepart
- Wide shank area for superior lateral stability
- Excellent for application to treat minor foot conditions
- 6/8 heel height

495

Pedic 235 – See Page 11

- Added Depth
- Universal Last
- Excellent for applications to treat minor foot conditions
- 8/8 heel height

235

Pedic 239 – See Pages 5 and Back Cover

- Wide shank area provides superior lateral stability and also makes this last extremely versatile for orthotic applications
- Deep, broad, oblique forepart offers maximum capacity
- 6/8 heel height offers excellent balance and weight distribution

239

MEN'S

Pedic 420 – See Page 26

- Deep, broad, oblique toe offers maximum capacity
- Wide shank area for superior lateral stability
- Excellent for application to treat minor foot conditions

420

Pedic 66 – See Pages 24 and 25

- Snug fitting heel with extra displacement in cuboid
- Wide shank area provides excellent lateral stability
- Excellent last to accommodate prescribed orthotics
- Additional overall capacity

66

Pedic 401 – See Page 22

- Wide shank area provides superior lateral stability and also makes this last extremely versatile for orthotic applications
- Deep, broad forepart offers maximum capacity
- 8/8 heel height

401

Pedic 74 & 741 – See Page 23

- Added depth combined with broad forepart
- Wide shank provides superior lateral stability
- Excellent last for various orthotic applications
- 8/8 heel height

74 &
741

Pedic 428 – See Pages 20 and 21

- Added depth combined with broad forepart
- Wide shank provides superior lateral stability
- Excellent last to accommodate prescribed orthotics

Dear Drew,
I am diabetic and suffer from constant foot pain.
I decided I was going to get new shoes on my way
home from Ohio. I went to Fred Toenges in Ft.
Wayne, In. That was earlier today. I am now at
work, I walk 2-3 miles a day on concrete, and my
feet are pain free!! I love my new DREW shoes.
Thank you!

Steve, Bo and Woody. Steve seen here wearing the Drew Force

Dear Drew,

Steve has been a type one diabetic for 51 years. 4 shots a day. Sometimes more. About 3 years ago 2 dogs came up to our house. They were in really bad condition. Starving barely weigh 45 lb. One was a mixed lab and the other one was an akita, both near death. He fed them and they stayed with us. We took them to the vet and spent more money than we had. Used a charged card but it was worth it. They both are well now. . . 100 lbs. and 95 lbs. One has to take medicine every day. But getting to the shoes. Steve started walking them (Bo & Woody) everyday for the last 3 years, while wearing his Force V sneakers. He truly believes those dogs have kept him alive this long because he keeps exercising them. They love it and him. Being a diabetic he has no feeling in his feet and needs good shoes to walk the dogs. We spent more money for these shoes but they are worth it because he is worth it. I love him and want him with me as long as the Lord will let him.

Steve's Wife, Kim

Dear Drew,
I now have six pairs of Drew shoes. Their unique design incorporating a deep foot-bed has allowed me to work full days without having to treat foot/ankle pain with medication, has improved my mobility and allowed me to delay surgery indefinitely. I'm able to walk again and enjoy doing many of the activities that I once enjoyed but had to stop due to excessive foot/ankle pain. Drew shoes have given freedom again.
Thank you! Don

- Flexible, Shock-Absorbing, Rubber Outsole
- Tempered Steel Shank
- Velcro® Brand Fastened Footbed
- Soft, Foam-padded Tongue and Collar
- Adjustable Velcro® Brand Closures
- Accommodates Prescribed Orthotics

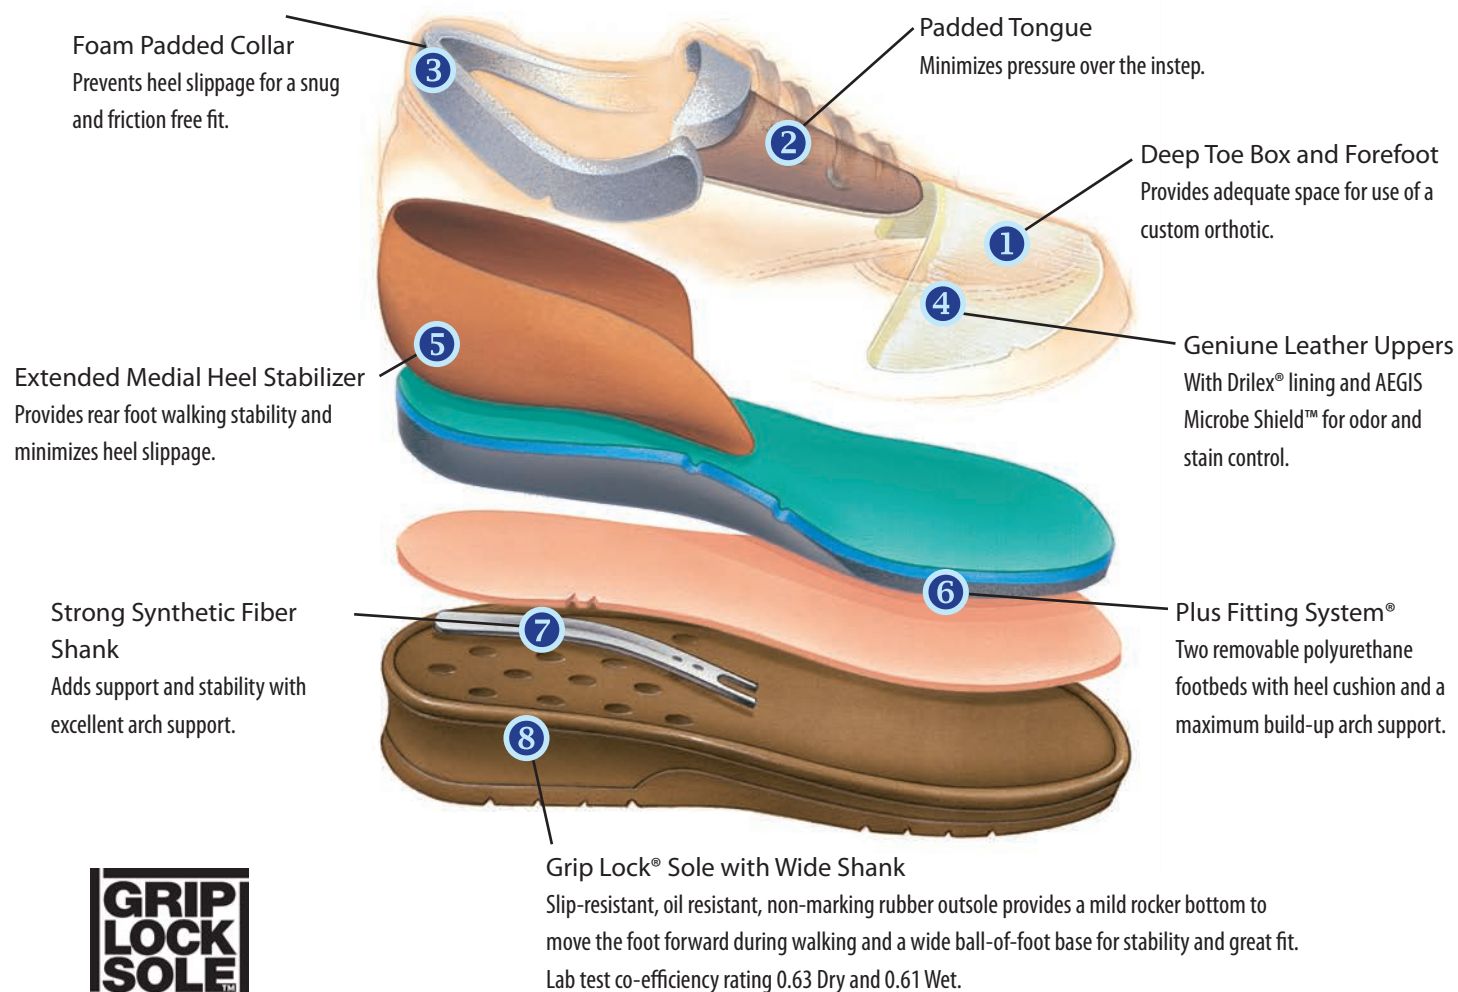

I have a pair of Rockford boots and a pair of the Boulder shoe both lace-ups really love them both. The Rockford boots I've worn for the past couple years and I am in the firewood business in western Colorado. Retrieving firewood from The High Country between 8 and 11000 feet can be a little tedious as well as quite cold and wet, as do we get quite a bit of snow here. These shoes have kept my feet warm and dry and have done a great job. I just got a new pair of the Rockford's because I like them so much. I have plantar fasciitis and have an orthopedic insert in my shoes they are just extremely comfortable and the extra padding really feels good. My boots and shoes have taken me a lot of steps the past couple years I really like them. Thank you, Drew!
