

## Company Profile

Game Store Co. is a retailer and wholesale distributor of interactive video games and gaming products, including software, hardware and accessories. The company based in Kuwait was found in 2007. We provide resellers with quality, name brand products such as Sony, Microsoft, and Nintendo at competitive prices, with the utmost in customer service and support. A large client base including well-known high street and internet retailers benefit from our role as a major supplier. Corporate resellers and independent retailers are business partners as well.

Game Store has been serving the gaming industry for many years. Through all those years our goal was and still to earn the trust of our customers. And to accomplish this goal we at Game Store are committed to offer competitive pricing. However, we understand that offering goods for lower prices alone can never create an edge for us in this business. We are determined to combine honest and helpful dealings with an outstanding service before, during, and post sale. We understand that long term clients' satisfaction depends on our ability to maintain a knowledgeable and courteous client's service staff assisted by the best support systems. As our numbers are constantly improving, where our suppliers and clients base is expanding, we foresee a great potential for growth within the next few years. Our business plan is engineered to maximize our potential growth within a successful business environment.
