growing business in
EQUESTRIANISM – A

Welcome Message

We are group of experienced professionals in equestrian business with 15+ years of experience in the field and proven successful track of record in the Industry. As the equestrian market in Europe is fairly advance and mature it's becoming role model for emerging markets with substantial potential.

The market which is far largest currently and with major potential for growth is China, when the government is supporting the development of several sports fields including jumping and specifically as part of the Summer Olympics program. Therefore we have formed exclusive business group which focus is to support the development of Equestrian industry in emerging markets. We do also focus at large scale Horse Development program, which connects with this goal.

We aim to cooperate closely with Chinese Equestrian Association and related service organizations to support the development of the segment in China and other countries. This provide us unique opportunity to develop exciting and high-growth business of equestrian services not only for the Chinese market, get the Horse Development to the the next level and also participate at racing events throughout Europe under the CHINA TOUR umbrella.

Jerry Smit, CEO

Horse Searching

The company develops unique scouting system to be able delivery steady stream of quality horses into Development Program to produce high quality candidates to the entire rank of performance grades.

Development

Vision 2024 will be managing large scale Horse Development program to be able to provide its clients sufficient number of high-quality horses which are being sold both at the open market as well as through contract with industrial partners to support Olympic program cycle.

Event Management

The bread and butter of Horse Development Program is participation at the selected events, where Vision 2024 will be also co-organizer of some to support cooperation between Europe and other markets.

These activities are also part of promotion of the Sport in the emerging markets.

500

Horses
