Clean, simple 2D-style **mountain skyline** formed out of the letters „**IsFi**“ (which stands for the names „Isa“ and „Finn“). Ideally the letters are forming the shape by itself. Alternatively a cool combination from a shape and text could work too.

Stylewise the logo has to fit to the style of image on the back of the card. Same for color.

Background:

We love mountains and rock climbing, first met in the mountains and will have our wedding in the mountains.

Colored, „2D-ish“ image of the bridal couple.

The girl with brown hair and a pregant belly.

The boy with short dark-blond hair and unshaved with a little accent on his incisor teeth. Just a little.. ;)

Clothing should be „casual“ wedding style. No tie.

Background mountain scenery with a small alp in summer time.

Overall style should be „cute“, „playful“, „comic“, „friendly“ and „happy“, but not „silly“, „too goofy“ or „too manga“ and has to fit to the style on the frontpage. Please see below images for style ideas and images of the couple.

The goal is to get the real persons recognized from the drawing and giving a good feeling when thinking towards a wedding the mountains.
