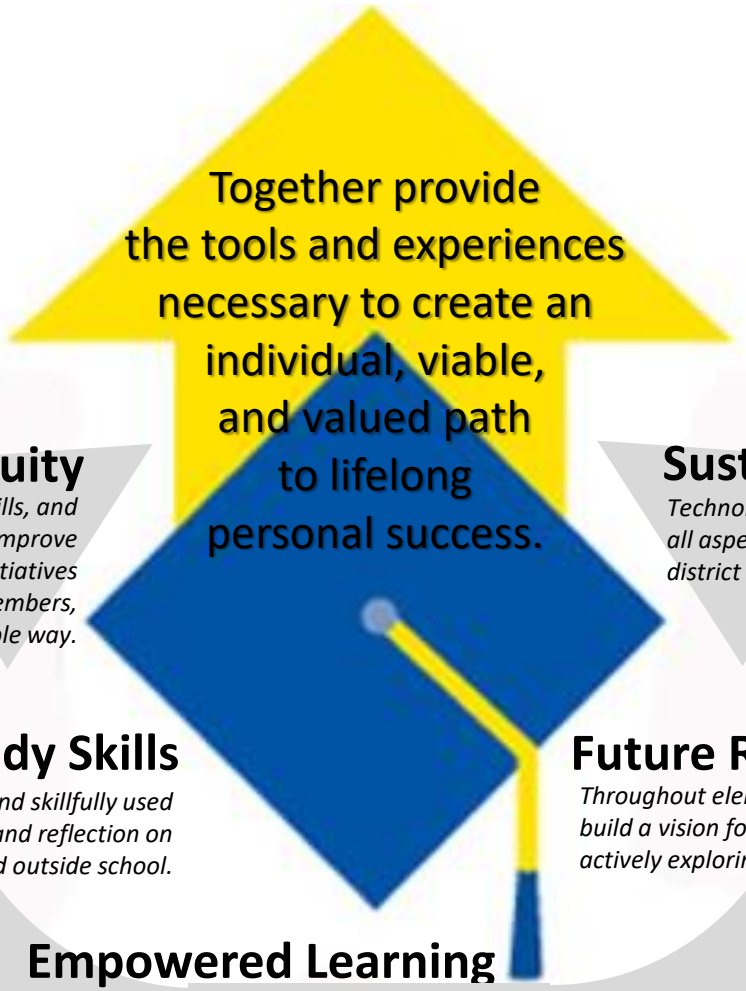
Tahoma Technology



Access and Equity

Students and staff have the tools, skills, and opportunities to leverage technology to improve learning and productivity. Efforts ensure that initiatives support the needs of different students, staff members, classrooms, and buildings in an equitable way.

Sustainability

Technology decisions are made considering all aspects of sustainability and align to district goals and priorities.

Future Ready Skills

Digital tools are purposefully identified and skillfully used to support acquisition, demonstration, and reflection on Future Ready Skills, both inside and outside school.

Future Ready Plan

Throughout elementary, middle and high school, students build a vision for their valued, viable, and successful future, actively exploring, refining and planning for their next steps.

Empowered Learning

Technology is used in authentic ways to design experiences that challenge, engage and empower students to deeper levels of learning and demonstrating that learning. Instructional practices, learning environments and use of digital tools and resources are leveraged to empower students.
