

We manufacture and distribute luminaires for industrial lighting applications. We cover the European market. We look for a basic well designed website, with not too much text, as we gonna do it multilingual. Requirements:

a.) Wordpress Avada Theme

b.) Pages:

1. Start (compare <http://www.glowone.co.kr/rb/?r=en> and [www.schuch.de](http://www.schuch.de) for slides => mixed products & industry photos)

2. Company (short description like <http://www.schuch.de/en/company/about-us> , european map with offices in Stockholm (Sweden), Berlin + Heidelberg (Germany), Linz (Austria)

Description fill in: „**The name of LGE stands for competence and quality in all areas of technical light fittings:**

waterproof/dustproof light fittings - industrial-type light fittings - outdoor luminaires -

A very high level of reliability, of quality awareness, of competence and innovation leave their mark on thinking and actions of the people working in the family company.

High complexity of production and wide know-how have been enjoying tradition at SCHUCH for a very long time: Research and development, laboratory work, toolmaking, polyester pressing plant, sheet metal forming, powder coating and assembly are concentrated in LGE's own premises. Worldwide innovations have helped LGE over and over again to launch new impulses to the market. For decades now LGE has been one of the leading bidders of this industrial sector.

The international significance of LGE as a lighting specialist is basing on intelligent and useful solutions - not just with regard to standard products but also as far as branch-specific technical problems or challenging conditions of application and particular customer wishes are concerned.“

3. Products [pls. see infographic under <https://www.trilux.com/en/applications/industry/lighting-for-industry/> [ we are looking for something similar as start on the top, then short description product with download pdf]

4. News (Events, new products, etc.)

5. Partner-Login (for Downloads of further data, well structured)

6. Contact (4 office addresses, map, no contact form)

c.) Logo / Colors: 1 Logo with 2 different colors, please choose either blue or red one or alter the colors according to your recommendation

d.) What do we do? High quality industrial lighting + smart lighting control (wireless + energy saving)
