

## CONNECT WITH US

Ark Consult is more than just a professional advisory consultancy; we are an integrated professional team with deep domain expertise, industry knowledge and the ability to work across multiple jurisdictions supported by a wide professional network.

We forge strong client partnerships and in doing so, we develop and maintain these relationships through performance and delivery of professional services which create and maximise value for our clients.

## THE CONTRACT AND CONFLICT ADVISORY

Through our unique approach to contract and conflict management, we want the best for our clients to ensure that contract integrity, compliance and performance is maintained with the upmost faith, based around our principles.

## ABOUT US

We are an experienced contract and conflict advisory providing global contract performance solutions and conflict management to:

international development organisations

construction industry

oil and gas industry

government sectors

If value, whether financial or relationship is not achieved, then we are not finished, we have only just begun.

## WHY CHOOSE US?

Observing the standard of consultancy services and magnitude of contractual engagements and conflicts, we see the opportunity to make things better, **better engagements, better awareness, better performance, which all lead to better value** in terms of financial benefit and relationship maintenance.

Our services are uniquely delivered through our integrated management consultancy model, with a single point of contact and responsibility, and focused attention to detail.

We provide advisory services and solutions resolving past and current issues, and in doing so, preparing our clients for a conflict free future based on our core principles of integrity, equality and strength, ensuring compliance and experience at an intimate professional level.

We aim to have our clients feel our principles in our presence and in our advisories, giving the service which is deserved.

## OUR SERVICES

Every contract has at least two parties; every party has a goal, and every goal matters. Each party must work in equilibrium as a contractual partnership or alliance, it is on this premise we aim to deliver truly mutual agreements, maintaining the contract integrity from inception through the contract life, and where we are not party to the original agreement, we provide effective solutions to contractual conflict via our unique mediation methodology at all positions of the conflict cycle and aim to enhance all aspects of contract performance by effective audit and management.

### CONFLICT ADVISORY

Every conflict has the ability to be settled, it is on this premise we deliver effective solutions to contractual and commercial disputes with the aim of preserving the relationships and strengthening the parties for the future ahead.
