I really like the font, it is so simple but bold and clean. colours could be played with and possible creative additions (sleek or silhouette). Need different font and maybe positioning for “Rhythm & Blues”. As well, the logo has to be able to go on a black or white background with out being boxed by a background colour. Although the logo could stay black and reverted to white on a dark background.

The font is called Marker Felt and it is on Mac pages.
