SERVICES

We serve as expert custom clearance agents and specialized logistics solutions providers, whether imports or exports. The importing and exporting of goods require varying levels of processing and legal documentation. We assist our clients while ensuring there are no unnecessary delays in the process.

Freight Forwarding & Logistics:

We offer Freight Forwarding & Logistics Services that include International Freight Forwarding, Import & Export of Air Cargo, Import & Export of Sea Cargo and Multi-modal Transshipment. Our time-bound service is designed to meet your on-time requirements. Our Logistics & Freight Forwarding services are executed by expert manpower and in a well-planned manner to ensure safe delivery of goods.

Ocean Freight Services:

NAF Ltd. offers inbound and outbound services for both LCL (Less Than Container Load) and FCL (Full Container Load). We have special contract rates with some of the leading main line operators with service coverage to and from all major ports and destinations. A multi modal door delivery transportation model is also available.

FCL (Full Container Load)

In FCL or Full Container Load a single container is intended for one consignee. The container dedicated to one client is picked from his facility with proper documentation and delivered to desired destination with full safety.

LCL (Less-Than-Container Load)

NAF Ltd. will take care of partial container and safely forward it to the desired destination. In the LCL container, the shipment from two or more clients can be clubbed with one another and is proved cost effective.

Air Freight Services:

To meet all your global transportation requirements, we provide freight forwarding services that can handle all air freight shipment needs around the world from small to largest consignments in most professional and authentic manner having swiftest quality.

Domestic Shipping Services:

The domestic shipment services provided by us are the forte of our company. These shipping services are specially designed keeping in mind the uniqueness of our archipelago. The domestic shipment team is committed to the seamless, safe and secure movement of cargo or consignment.

Freight Consolidation Services:

The Freight Consolidation Services for shipments are the cost effective way to transport low volume cargo. By grouping your shipment with others to fill a standard container, you avoid the cost of shipping an entire container on your own. Cargo freight consolidation is a cost effective supply chain solution. The consolidated shipments receive the same benefits as full container load shipments with our world class logistics team, global network and local experts at every destination.

Inbound Groupage

Working through an extensive global network of associates and innovative routings, NAF Ltd. ensures that inbound freight into The Bahamas is economical, effective and time-bound as far as deliveries are concerned. These services include

- Preparing and filing required import documentation such as the bill of lading/air waybill and routing appropriate documents to the seller, the buyer, Bahamas Customs or a paying bank
 - Advising on the most appropriate mode of cargo transport and making arrangements to pack and load the cargo.
 - Advising on important import costs including freight costs, port charges, insurance costs and freight handling fees
 - Consolidation of shipments
-

-
- Reserving the necessary cargo space on a vessel, aircraft, train, or truck negotiating best rates

In Bound Door To Door Logistics

NAF Ltd. specializes in offering services that span

- Shipping Documentation
- Custom Clearances
- Cargo Insurance
- Warehousing and Local Distribution

as a part of its Door-to-Door Logistics Service.

Customs Clearance Services:

The Import and Export Customs Clearance Services offered by NAF Ltd. supports faster, hassle-free clearance of shipments. We utilize our expertise and latest technology and ensure that the supply chain of our clients remain compliant.

Customs Brokerage Services include:

- Foreign Trade Zone Consulting
- Import Documentation preparation for Home Consumption, Transshipments and Temporary Admissions
- Calculation and payment of taxes, duties, and excises
- Import and export Clearance Services Available

Warehousing:

We offer dedicated warehousing services to our clients that helps them in easy handling of their imported and exported goods. The cargo and goods are easily segregated in a quick and effective manner that results in covering any unnecessary delay.
