

ScaleX is the only water system in the world that eliminates scale and prevents it from happening without chemicals and electricity. No need to have multiple filters, ScaleX prevents future scale buildup WHILE fixing existing scale problems; all without the introduction of any chemicals into the water supply.

This is achieved through our patented "fairy-dust"- which is actually a ceramic matrix that encapsulates the Calcium and Magnesium- in layman's terms it makes the water more slippery at the molecular level!

Why ScaleX is better than water softeners:

- No salt required
- No back washing required
- No regeneration cycle required
- No chemical or salt added to the water
- Maintenance free media*
- No electrical connections
- No drain connections
- No control valves
- No down time due to clogged lines or pumps
- Eliminates existing scale in water lines and equipment
- Increases the life of your RO membrane

Proven to last 4 years plus successfully.*

**4 YEAR WARRANTY. IF OUR FILTERS/SYSTEMS FAIL TO DO WHAT IS STATED,
THE FILTER /SYSTEM WILL BE RE-PLACED OR PURCHASE REFUNDED IN FULL.**

To begin your journey to a life free from scale, we kindly need to test your current water hardness, as well as receive your peak water usage numbers (easily obtained from your water bill).

* Chlorine is removed by the carbon filter which has to be changed every six months to maintain the media

Decrease your maintenance cost
Increase your efficiency
