TESTIMONIALS

"BFG Finance have been absolutely fantastic! They helped us secure a great rate and the perfect loan package for our investment purchase. We recommend Mark & Jenny to everyone we know."

J. P. MOREY – VIEWBANK

"We highly recommend BFG. Our situation was slightly complicated and we were dreading having to start talking to banks to get our home loan organised and approved. After Mark & Jenny visited us to work through everything, our home loan was approved and organised within a week. So much stress was taken off our shoulders by their professional approach."

Dallas & Jackie Saxby, Tarneit

"Entering the home owner market seemed all too daunting, so I continued to put it off until I met Mark Handmer. I would never have bought my first home if I never met Mark. He made it simple and painless and looked after all the details. All I had to do was organise the Conveyancer and Building Inspections. We provided Mark all the information he requested and he provided and estimated the amount in real terms and what it meant to my wife and I as we were also planning a family. Eighteen months later, once we found a house we liked Mark made a second visit with us and again, he made it all seamless. Eight years on and my wife and I still tell people about the service provided by Mark to help us secure our family home."
