ADVALITE™

VINYL HYBRID RESINS

Novel vinyl hybrid resins for automotive, radome and aeronautic applications

Innovative resin technology delivers performance and cost advantages over conventional epoxy resins and can be tailored to meet processor's individual specifications for optimum performance.

FEATURES

- Available in liquid and hot melt prepreg formulations
- Excellent mechanical properties
- Rapid cure rate to reduce production times
- Reactive diluent-free/styrene-free

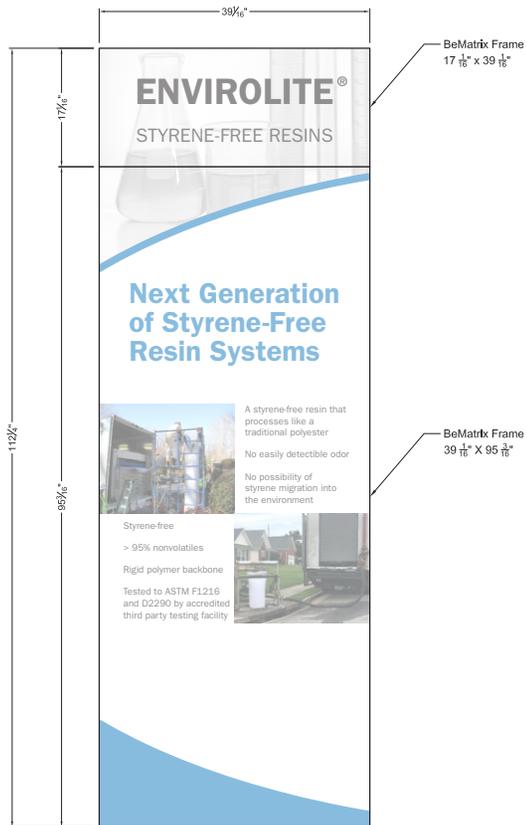

PROCESSES

- RTM
- Infusion
- Filament winding
- Liquid molding
- Prepreg
- Pultrusion

ENVIROLITE®

STYRENE-FREE RESINS

Next Generation of Styrene-Free Resin Systems

A styrene-free resin that
processes like a
traditional polyester

No easily detectible odor

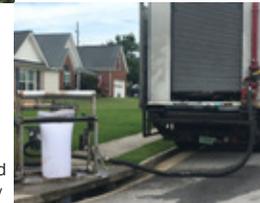

No possibility of
styrene migration into
the environment

Styrene-free

> 95% nonvolatiles

Rigid polymer backbone

Tested to ASTM F1216
and D2290 by accredited
third party testing facility
