

WHAT MAKES US DANCE? HOW DOES A SONG GET UNDER YOUR SKIN?
WHAT HAPPENS IN YOUR BRAIN WHEN YOU HEAR YOUR FAVORITE SONG?

INVITATION

LET IT MOVE YOU AT

BIO— RHYTHM

MUSIC AND THE BODY

FRIDAY JANUARY 12, 2018
THE HEALTH MUSEUM
ON 1515 HERMANN DRIVE, HOUSTON.

5:30 - 9:00 PM

You are invited to the official launch of BIORHYTHM: MUSIC AND THE BODY, an exhibition created by Science Gallery, Trinity College Dublin, which launches at The Health Museum on January 12th 2018.

Music is a central part of the human experience, but what is the natural force that drives us to strum, drum, and dance? What is the scientific basis of whistling, humming, and toe-tapping?

Join the President and CEO of The Health Museum, Dr. Melanie Johnson, at this exclusive event which features a range of performances and educational activities.

Be moved by a contortionist on the Sonic Bed, dance in a silent headphone party with music from Killem Collective, unwind at ticketed cash bars, exclusively tour the exhibit to the violin sounds of Richard Punch, jam to music from Houston's School of Rock, collect new works at the pop-up All Access Art Show, and feast on local eats from Houston area food trucks.
