

MISTIFY
YOUR WORLD

WHAT IS MISTIFY?

MISTIFY is a high-pressure misting system raised from the major festival scenes of Europe. Our machines produce extremely fine micro-droplets of water that mix with the air to form a thermal curtain, creating a refreshing atmosphere for the attendees of your festival, event, or even indoor venues.

WHAT CAN WE DO?

HOW THE ENTERTAINMENT INDUSTRY IS ENHANCED BY MISTIFY

INSTANT COOLING

MISTIFY can lower the temperature of areas it covers down from 5°C (41°F) to an impressive 12°C (54°F)

AESTHETIC EFFECTS

MISTIFY can transform a venue into a fresh and beautiful setting, especially if paired with lights

DUST CONTROL

MISTIFY's micro droplets can beat the dust! Give the gift of comfort to your guests and forget about face masks

CIRCULATE PRODUCT

MISTIFY can carry fresheners, disinfectants, insecticide or other air treatments to condition your venue

MISTIFY YOUR WORLD TODAY!

6

AREA

120 SQM/40M

1 machine can cover up to 120 sqm, with a 40M nylon hose equipped with over 100 nozzles.

MACHINE

70 Bar

70 bar high-pressure machines that can control and regulate the strength of the mist.

EFFECT

5-12C

Cools down up to 12 degrees celsius (54 degrees fahrenheit) in areas of mist.

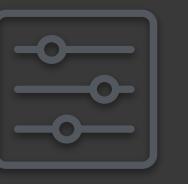

WATER

An ample amount of water is needed to create and maintain refreshing mist.

WHAT DO YOU NEED?

ELECTRICITY

One 15 AMP machine requires a regular powerpoint, just like any household item!

WIND

The condition of the wind will often affect the height and direction of the mist.
