

Gig poster for famous pop band!

We need you to create a new gig poster for the coming tour summer. It should include pictures of 4 band members and the logo.

Here's the graphic challenge: We have 15 performers and use different constellations for each gig, so we can't use one photo. The poster needs to be a compilation. What we need is a system where we can exchange the picture of one member for another, to make the right constellation. So each picture of each band member has to be made separate, then inserted into the final picture with three other pictures for a great completion.

Attached are some previous attempts, all of them are bad. They either look cheap, or it looks like an attempt to make it look like a real photo even though it's clear that it is a montage. It is not a problem that it looks like a montage as long as it does not look like a bad try to disguise itself as a real picture.

Rednex is a party band. It is good if the poster gives a feeling of party and energy, but it might also be better with a simple presentation of the performers without any frills. Watch these You Tube music videos to get a feeling for the band, which is pulling inspirations from rednecks and the Wild West (hay, farms, guns etc.)

Rednex got famous in 1994 for the world wide hit Cotton Eye Joe. We are doing around 50-70 shows per year and still releasing new songs/videos.

Attached are also pictures of 5 band members and the logo.

The files need to be compatible with Indesign.
