

vision IMMERSION

Your Smart Home Integration Professionals.

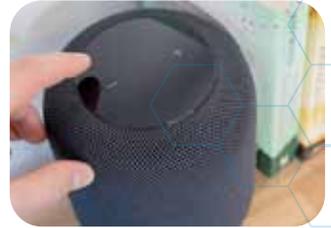

We'll show you how these speaker powered voice activated [Smart Assistants](#) hold the key to your New Smart Home. Start building your new Smart Home with these devices starting from \$50.00

Amazon Echo

Google Home

Apple Homepad

“What exactly is a Smart Assistant?”

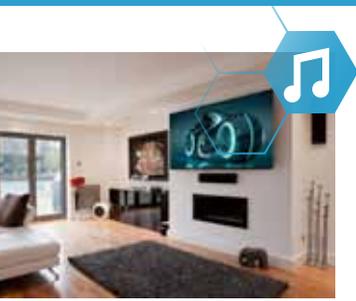

Like Siri, Cortana or Google Assistant on your smartphone, except for your home. An unpaid personal assistant doing all mundane tasks around your home. Combining these virtual assistants with speaker hardware allows you to turn your home into an automated, voice activated, app-controlled hub.

“Why do I need Smart Devices?”

If you are happy turning your own electrical equipment on and off, finding the remote for the tv or walking to the other side of the house because you left the light on - you don't. But if you prefer to spend more time with you family, pets or leisure activities, Smart devices are your answer.

OUR SMART DEVICES OFFER SECURITY, CONVIENCE,
SAVE YOU MONEY AND LEAVE YOU TIME FOR MORE
IMPORTANT THINGS.
