

Prontoscape is a mobile app for running Landscape and Lawncare business.

Prontoscape is StyleSeat for Landscape and Lawncare businesses. There are two group of users for **Prontoscape**: the customers who will use Prontoscape to find Landscape businesses and contractors in their area; and the Landscape businesses and contractors who will use Prontoscape to generate leads, submit bids, estimates and invoices and manage their business from their mobile device.

This design project is to create the first three screens for this app. This first three screens (Directory, Business Profile and Add/Edit Business profile screens) **are for phone. Tablet design will come later.**

Prontoscape Screen 1 - Directory

This screen is a directory of Lawn Care businesses and providers. This list will be searchable, and filterable.

Each entry in the list should have the following information

1. Business name
2. Picture (could be sample of work, headshot image of business owner/contractor)
3. Areas served
4. Request quote button
5. Phone number
6. Brief intro

Prontoscape Screen 2 - Business Profile

This screen shows more information about the Lawn Care business or contractor. Most businesses in this category are small business or solo operator, so this screen should be flexible to show the profile of a company/individual owner.

Information that should be shown here include (Example: <https://goo.gl/FiMHcj>)

1. Business name
2. Picture/gallery of recent work
3. Address
4. Areas served
5. Request quote button
6. Contact information number
7. List of services offered

Prontoscape Screen 3 - and Add/Edit Business

Just like the name said, this screen will be used to create Business profile, please think as a user of mobile phone. The example below is for desktop, so on the phone the user will not be able to copy and paste their Facebook URL, instead there could be a button that says, connect your Facebook.
