

JetSweep™

Jet Lift Systems™

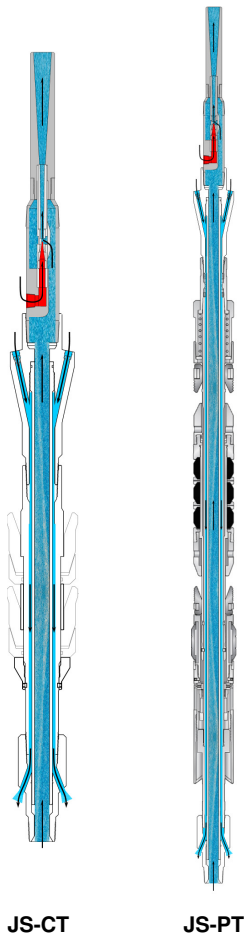

Rig Assisted Jet Pump Sand Cleanouts

JetSweep is the first a first for the industry, providing a pressure balanced well vacuuming process. Rig assisted sand cleanout operations can now be performed without high fluid losses, and without the expense of multi-string coiled tubing units or nitrogen.

Contact Jet Lift Systems to pan your next well cleanout operation.

JetSweep™ Balanced Pressure Cleanout:

- *High sand lift rates*
- *Reduced cleanout operation times*
- *Reduced cleanout fluid volumes*
- *Reduced tank costs*
- *Reduce water hauling*
- *Faster return to oil production*
- *Full wellbore cleaning*
