

World Class Tooling Solutions

Weber Manufacturing Technologies Inc. is an innovative mold design and manufacturer since 1962 for tooling solutions in composite processing.

Hard Metal Molds and Fabrication

- Aluminum, Invar 36, NVD Nickel, and Steel including machining services to 80,000 lbs

NVD Nickel Shell Molds

- Onsite operation of unique nickel vapor deposition facility for the additive production of precision shapes used as molding surfaces.

Facility

- 135,000 sq.ft, 200 employees, in-house design, CMM
- 5-Axis CNC machining centers, contour mill and gun drills
- Fabrication wth certified welding, including laser welding
- ISO 9001:2008 and CCGP registered (satisfies US-ITAR),
- Boeing approved
