# WHO AND HOW WE SERVE

## SPECIALIZATION OF INDUSTRIES

Knight Restoration focuses specifically on the **commercial industry**, without wavering, as we feel this is the best way to serve our clients. Without compromising quality by spreading our crews for minor residential issues, Knight focuses all labor, equipment and resources to the commercial world to fully serve those clients.

## BREADTH OF SERVICES

With the focus on large, commercial loss only, we have invested all of our resources into equally large equipment and talent pools. We feel this provides our clients with the best results.

# WHERE WE SERVE AND WHY

## REGIONAL/CATASTROPHIC RESPONSE

Knight Restoration has the capacity to respond on a regional level. During catastrophic events, we will respond outside of the territory and into Southeast US if a client has requested our presence. Rather than spread ourselves too thin, let's reign it in and be the best where we are.
