- Questions to ask:
 - Does this make sense?
 - Does this feel credible?
 - Does this resonate with you?

Target Market

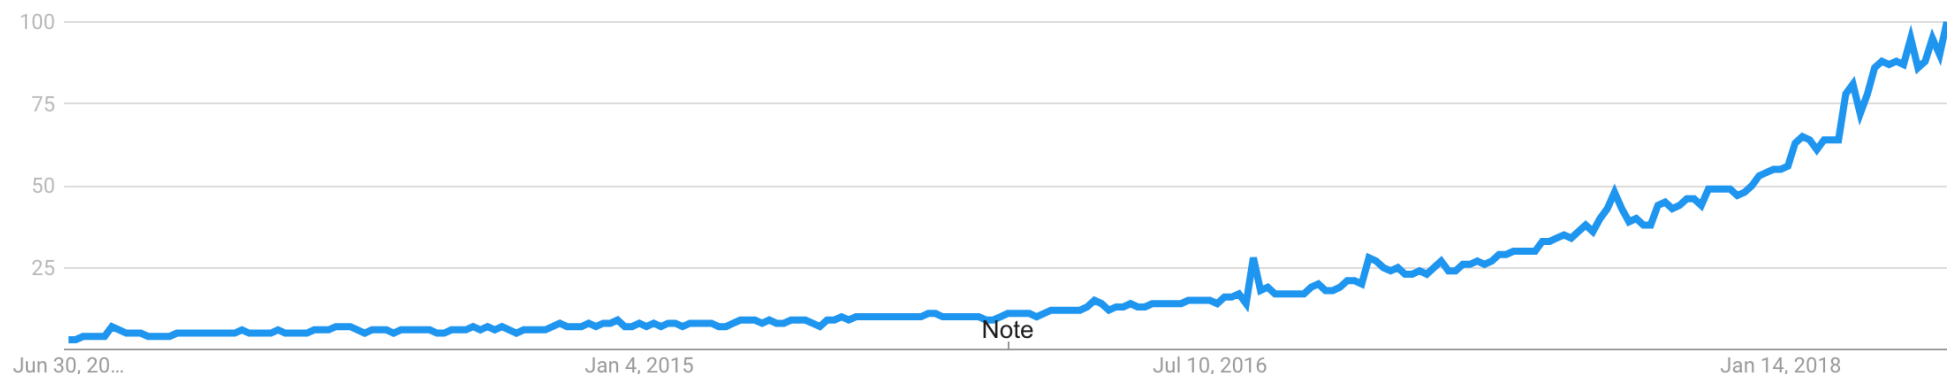

CBD has exploded over the past year and is quickly becoming an acceptable substitute for many types of drugs, pain-relievers and ant-inflammatories. As such the **endurance athlete** market is a terrific target market for these products. Endurance athletes regularly have **inflammation, sore muscles, injuries and pain issues** related to their training and competition.

Endurance athletes are constantly looking for ways to improve performance, speed recovery and treat various injuries.

Engineered for Endurance

Why CBD?

- All natural anti-inflammatory, pain killer, mood enhancer
- Pan Killer
- Undefined market

Why Endurance Sports?

- Pain, inflammation and injury are a part of the sports.
- Athletes are fanatics who want to be healthy and enjoy their sport.

What Are the Margins?

- 80%+ with recurring revenue

How is this an Opportunity?

- The vitamin & nutritional supplement market sold \$36.1 billion in 2017
- There is an opportunity to own the endurance sports market for CBD related supplements in-part by creating a focused brand, focused products and over-delivering on customer experience related to their sport, lifestyle and health.
