

Everything

Love

*Its what I am to you  
And you are to me*

*We walk through life hand-in-hand you and me  
Your strength holds me up and sets me free*

*Its what I am to you  
And you are to me  
Your love is everything can't you see?*

*Your kindness gives me hope and keeps me sane  
You're the only one who can ease my pain*

*Its what I am to you  
And you are to me  
Your love is everything can't you see?*

*You are my world my life and my friend  
I'll be here for you until the very end  
Its what I am to you  
And you are to me  
Your love is everything can't you see?*

*With all my heart I thank you for your love  
I give mine in return though I now it's not enough*

*Its what I am to you  
And you are to me  
Your love is everything can't you see?*
