

Built for K-12

## Today's K-12 Support Platform

Manage everything teaching and learning depend on

Support everything & everyone

Hardware

Student Information Systems

Network

Software

Learning Management Systems

Facilities

*Easy for teachers* – Quick and easy ticket submission all in one place.

*Efficient for teams* – Powerful productivity tools for support teams across all domains.

*Analytics for leaders* – Rich data to drive improvements with no data silos or gaps.

# More than a help desk

## IT productivity quadrupled

SIS and LMS specialists saved 75% of their time reporting and resolving Blackboard and Infinite Campus help requests.

— *Fayette County Public Schools*

## SIS & LMS Integration

Data is accessible across platforms, enabling custom ticket workflows and empowering IT specialists to resolve twice the issues in half the time.

## Deployment in record time

36,000 devices distributed to students in approximately two hours per school.

— *Henry County Schools*

## Asset Management

Distributing and assigning devices to students is as simple as a scan and a click. Asset data can be instantly tied to student user profiles through SIS synchronization.

## Data-driven decision making

"Incident IQ has become a critical hub for us ... it helps us minimize instructional downtime."

— *Instructional Technology Leader from Rockdale County Public Schools*

## Rich analytics

Analytics Explorer enables you to navigate key metrics for your district with monthly performance comparisons.
