Bulletin Board	Idea Board	Calendar	Overtime Opps	Course Board	

### **Points of Work**

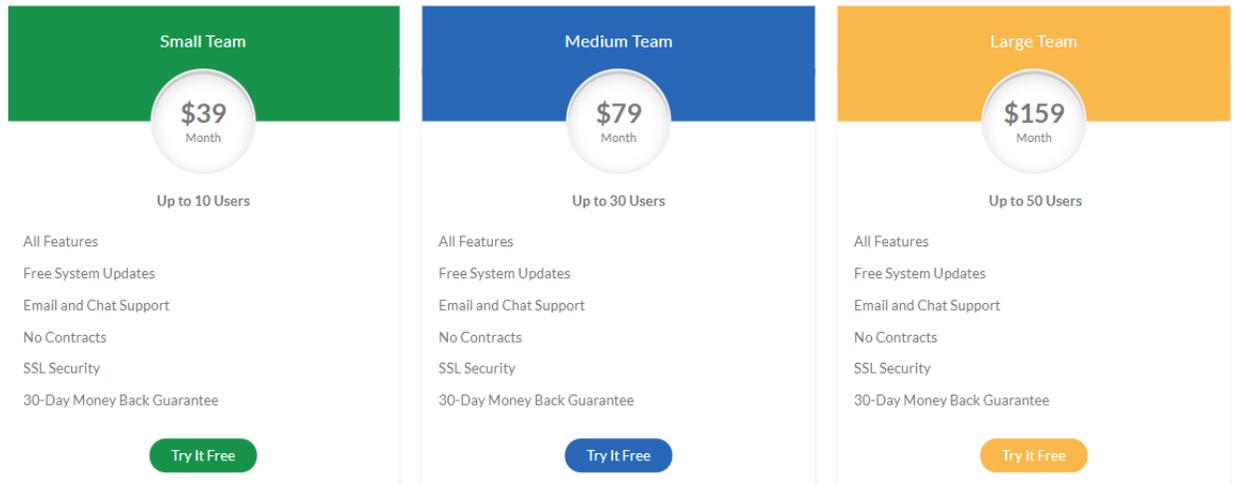

Provide logo designs for us to select

1. Integrate selected logo on site
2. Photos and screen shots must match the topic (so, if the feature is about the Bulletin Board, the screen shot must be of the bulletin)
3. Provide stock imagery for website
4. After designing the back end, create screen shots from computer and mobile view and integrate on website
5. All pages MUST be mobile friendly from any mobile device
6. Features need to stay formatted like the pic below, we just want it to be designed with the use of more colors and design
7. Back-end needs to look innovative with rounded buttons and imagery.
8. Design footer with social media links and contact information.

Pricing Page:

9. Integrate Woo-Commerce

10. Create photos for each package
11. Insert each item in Woo-Commerce and use the photo from point 9 for item picture.
12. Ensure each front-end page has been designed to theme

13. Put a buy now button under each “Try It Free” button
14. After user purchases, redirect them to the account creation page
