

QS GENERATOR RANGE

G20QS – G220QS

1. 20 -220KVA POWERED BY A JCB ENGINE, >7% EFFICIENT
2. WORLD CLASS COMPONENTS; MECC ALTE & DEESEA
3. 3 STAGE FUEL FILTRATION TO 5 MICRONS
4. 12HR RUN TANKS – BUNDED OR REMOVABLE
5. CLASS LEADING NOISE LEVELS -65KVA = 66DBA @7M
6. ALL METAL CANOPY WITH SINGLE PIECE ROOF
7. COMPACT FOOTPRINT, TRANSPORT SIDE BY SIDE
8. 500HR SERVICE INTERVALS -SINGLE SIDED ACCESS
9. FULL SERVICE SUPPORT FROM LOCAL JCB DEALER
10. 2 YEAR, 4000HRS WARRANTY AS STANDARD

10 REASONS TO BUY THE NEW QS GENERATOR RANGE

EFFICIENT PERFORMANCE

The JCB engine provides power to this generator range – meaning you can expect superior performance. Acceptance (G65QS and G90QS at 100%) low fuel consumption with increased efficiency and

CONTROL

The JCB Sea Electronics control panel provides great ergonomics, as well as machine monitoring and diagnostics. A large screen and multilingual settings make this a very simple to use unit.

IN THE TANK

With a locking cap to enhance security, and an on-board fuel gauge to make life even easier. In the standard version, there will be a fully removable fuel tank for easy cleaning and servicing. A bundled fuel enter the tank, whilst a bundled base will be available if requested.

OWNERSHIP COSTS

The JCB engine provides efficient performance and low fuel consumption, combined with a long service life to maximise uptime and drive down the cost of ownership.

QS RENTAL SPECIFICATION

- ✓ Stage IIIA Engine
- ✓ Internal Fuel Fill
- ✓ Bunded Tank
- ✓ 3 Way Fuel Valve
- ✓ Battery Isolator
- ✓ Adjustable Earth Leakage
- ✓ Additional Alternator Protection
- ✓ Single Lift Point

Options: Trailer, Socket Box, Rental Sledge

LIVELINK

PERFORMANCE

FUEL LEVEL

Refuelling required? Is the fuel being stolen?

BATTERY CHARGE

Is it enough to start the Generator?

EMERGENCY STOP

Is this the reason the machine won't start?

NEXT SERVICE

When is it due?

MACHINE MONITORING

Does the machine have any warnings

PRODUCT USE AND EFFICIENCY

Is the machine working properly

FREEZE FRAME FAULT FINDING

What happened when the problem occurred?

FLEET MANAGEMENT

LOCATION

Is the generator where you think it is?

VISIBLE TO ALL

Customers, Dealers and Manufacturer

SINGLE PORTAL

70,000 JCB machines already in operation

EASY TO USE

PC, Tablet and Smartphone ready

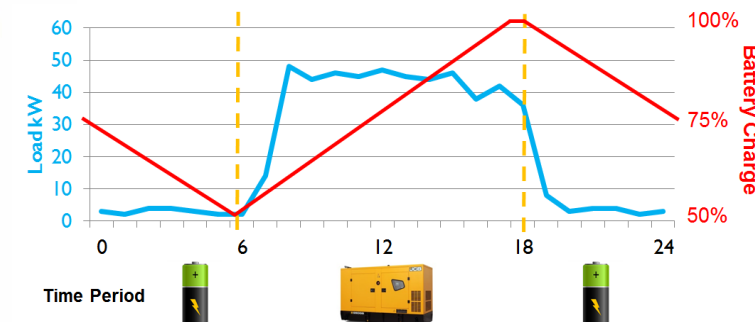

OPERATION

Is the unit working when it shouldn't be?

OPTIMISATION

Would a different generator or hybrid be more suitable & save money?

INNOVATION - INTELI-HYBRID

- ✓ Save up to 60% fuel
- ✓ Save refuelling time/cost
- ✓ Reduce CO₂
- ✓ Reduce engine hours
- ✓ Reduce service costs
- ✓ Increase machine lifetime
- ✓ Eliminate light loading
- ✓ Operate with no noise
- ✓ Turns off when no load
- ✓ Livelink enabled.
