

This Powerful Herbal Blend Forces Your Body To Naturally Produce Up To 122% More Testosterone!

(Hero Shot Banner Area)

CLINICALLY PROVEN TO

improve YOUR strength, energy, passion and sex drive than in your 20's & 30's GUARANTEED, if not more...

Dear Friend,

As you know, testosterone is an essential hormone for both men and women.

It regulates muscle mass, strength, bone density, metabolism, abdominal fat, blood sugar, libido, sexual performance, stamina, and energy.

In short, testosterone is **EVERYTHING** and crucial to your quality of life!

According to WebMD, In both men and women, testosterone levels peak between 20-25 years of age and after that drop 0.4 to 2.6% per year.

By the age of 50, testosterone levels can be more than 50% lower than peak levels in our youth.

What's interesting is that about 30 years ago, the University of Malaysia released a paper on a native herb and it's effect on natural testosterone production.

Since then, multiple clinical human double-blind and placebo-controlled trials have observed the effect of this ancient herb and the results have been nothing short of spectacular.

It turns out, low testosterone isn't just because of our age, and I'm about to tell you why!

“My memory improved and I was quicker on my feet, I was energized like in my 20’s again, and things improved in the bedroom considerably!”

“At first it took a few weeks for my body to adjust. I felt over-energized, much like a caffeine high but without the side effects, just so much energy. My libido has been great, and I feel more drive & energy. I feel 20 years younger! As a result, I have been hiking more and have **more muscle mass, and have lost 15lbs!** I just started taking **YoungBlood** six weeks ago, and what a change !!! Thanks for giving me a product that works -I will keep you posted as I have more mountains to climb – Cheers!!”

-Michael Varney, Vancouver, Canada

CHANGE NAME

(We can Add a Picture here)

What would happen to you, If you started taking **YoungBlood?**

Well, after a few short days of taking Young Blood you can expect the following:

- Improved sleep quality
- Improved mood
- Improved Stronger (mentally and physically).
- Improved sex drive.
- Improved Vitality
- Improved Athletic Performance

You're going to want to get off the couch, get moving and leave your comfort zone. This means going outside and doing fun things with your friends and loved ones.

No more energy drinks, legal steroids, patches or blue pills for an excellent quality of life.

(We can go through exact pictures, these are place holders)

YoungBlood can (look for weasel words) helps aging men dramatically raise their natural testosterone levels by as much as 122% without resorting to steroids, hormones and other pharmaceutical drugs!

(a picture of unhealthy Bill here would look good)

My name is Bill ,

5 years ago I was overweight, overworked, physically drained and very irritable.

When I was done work I would collapse

No Energy and no drive,

My body was chronically ill

I got a program

Was chronically ILL- in an out of hospital

When I was done working would get home from work, I would collapse on the couch and lay there lifeless.

Which means, not only was I missing out on the essential benefits of testosterone. I was getting hit twice as hard from the cortisol.

If you're not familiar with the dangers of elevated cortisol levels from again, here's just a few:

(Icons would be great here)

- Fatigue
- Irritability
- Headaches
- Intestinal problems, such as constipation, bloating or diarrhea
- Anxiety or depression
- Weight gain
- Increased blood pressure
- Low libido, erectile dysfunction
- Difficulty recovering from exercise
- Poor sleep

No wonder I felt like I was on the verge of death!

A few days later, a good friend of mine and his wife Carol (a medical researcher at one of the top universities in the Universities) **checked up on me.**

I shared with them the diagnosis along with their solutions and their potential side effects.

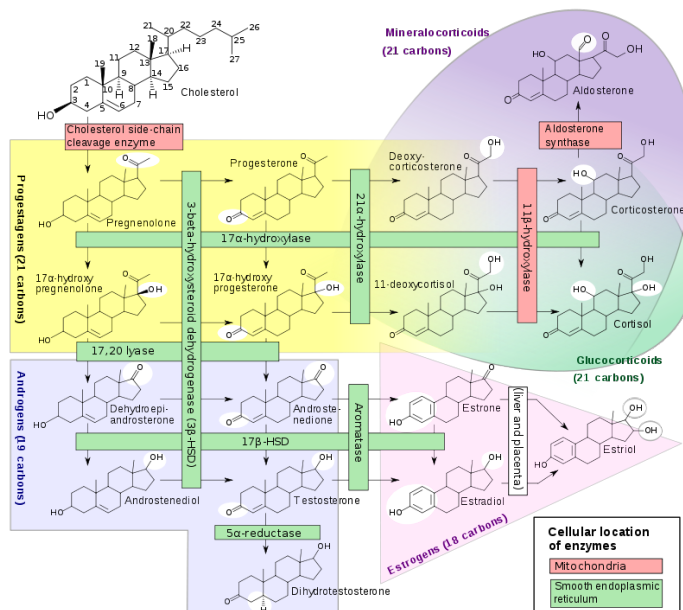

Carol suggested I looked into an herb from Malaysia that could help with my medical condition and had a lot of research to back it up.

I read medical reviews, analyzed case studies and here's what I learned.

Just because you're aging doesn't mean you can't produce testosterone. You just need to turn your hormones back on and get them working together again!

Let me explain to you how this incredible herb **Eurycomanone** works. Why it's so useful and why it should be your number one solution to low testosterone and high cortisol levels instead of pharmaceutical drugs.

Here are the basic steps that your hormones must follow to produce more testosterone:

1.Eurycomanone wakes up your Luteinizing hormone, AKA forces it to work.

2.The Luteinizing hormone wakes up the Leydig cells and also forces them to start working together.

3.They both release a group of hormones called “androgens.”

4.The androgens let out Testosterone, Androstenedione, and Dehydroepiandrosterone (DHEA).

Are You Still following?

These are the hormones we spoke about earlier that lead to an excellent quality of life.

The Luteinizing hormone starts increasing cholesterol desmolase activity, and this leads to the creation of **testosterone** and the release by the leydig cells.

As I mentioned before testosterone is **EVERYTHING!**

The second thing **Eurycomanone** does is block the conversion of testosterone to estrogen.

Side note: Estrogen is a female hormone that when elevated in men can lead to serious health complications and even deadly cancers!

The Third thing **Eurycomanone** does is decrease the sex hormone binding globulin (SHBG)

Side note: In order for us to use the testosterone we can't have SHBG in our system.

When our hormones work together, we're able to produce testosterone.

When you combine all the effects Eurycomanone has on the body. It's safe to say that it could be the most reliable and most effective herbal testosterone enhancing medicinal plant available today.

-

Back to my story

I read medical reviews, analyzed case studies and ordered dozens of “**THE BEST**” products containing this herb...

...There were lots of products and doses, some I could feel, others I couldn't.

Around this time I caught 2 segments on television, The Passionate Eye and 20/20.

They were testing **DOZENS** of vitamins and supplements and found that the majority did not contain the advertised amount and some **could be downright dangerous.**

After seeing that, I took my hard earned money and decided to investigate those “best” products.

I took the bottles I had just ordered and sent them off to a world class laboratory to see if they were the real deal.

Much to my surprise, some of the products that I had paid 80-90\$ USD **only contained as little as .0042 Eurycomanone!!!**

I did find 1 product that contained 1% of the **Eurycomanone**...

Wanting this all-natural solution, I went on a mission to source the highest quality, purity and potency of **Standardized** Eurycomanone, available in the world today.
(remember health canada will not approve)

After about a year of searching, I found a supplier and manufacturer who could get me the purest form of **Standardized**

They actually came in 10% consistently and we capped it to Eurycomanone and could guarantee 8% of it! To guarantee I was floored. I didn't think it was possible!

We bottled a special blend of eurycamamone for added benefits and almost immediately my life started changing.

GRAB 000.42 from website as well

After a full recovery, I went around giving this special blend to a few different people in my network that I felt could benefit from it.

The feedback I got was consistent. I indeed discovered what we believe to be mother nature's fountain of youth!

All those who tried this urged me to get this out into the world, and that was the beginning of **YoungBlood**

Can such an herb exist? Listen to what guys just like Dan Dan Jackson have to say about **YoungBlood**.

“I was drinking three to four energy drinks every day to help me work as hard as I like to work.”

As an operator of a plumbing company, work often demands much more than the average 9 to 5. When I started taking **YoungBlood**, I noticed I could maintain my peak energy better and longer than before. Within two weeks I was down to one or no energy drinks per day, and my energy lasted right into the evening! My girlfriend is also amazed at my abilities in and outside of work so needless to say I'm a huge fan of **YoungBlood**.

-Dan Jackson, Langley, British Columbia

And those benefits are just the tip of the iceberg

Because when you take **YoungBlood**

- **It can improve your hormones ability** to communicate and produce more testosterone (naturally) so that you can pack on more muscle and dramatically improve your strength.
- **It's clinically proven to improve energy I.e It can** completely obliterate fatigue, exhaustion and low energy (You could breeze through life, **conquering everything in your path with Youngblood**)
- **You can improve your Testosterone levels naturally** without the adverse side effects of steroids, heart attack, stroke, infertility, acne, and aggression!
- Brought to you by mother nature all good...
- CLinically proven to **improvee lean muscle mass effects of** Eurycomanone (You can skip hours upon hours at the gym- Here's all you need to do 3 times a day. The secret to consistently getting results, day in and day out)

“Over 100 people got pulled out of the water on that race, and unlike them, I came out feeling like I could do it again, and that’s where **YoungBlood really made a difference!”**

“Not only did I feel always on top of my game during every training session leading up to my event, I felt NO fatigue during the peak training phase which, always pushes my limits. **YoungBlood** helped me not only physically but mentally, with lots of positive energy in the brain. During the race itself, I felt endless power during the 112mi bike, and if anything fell off in the marathon-run, it was my big toe, not my energy.”

-Tim Ferguson, Vancouver, Canada ~ Ironman Triathlete

-
What is your health worth to you?

What would you pay to look good and feel good?

I didn’t bring **YoungBlood** into the world to make money. I brought it to change lives and make a difference.

I’m so confident that **YoungBlood** could change your life that I’m going to do the following,

I’m going to offer you a 30-Day 100% Money Back Guarantee.

If it doesn’t work like I say it does, get your money back and keep the bottle, don’t send it back!

This means more testosterone, happiness, passion and sex drive with no risk!

- Health Canada Approved

- World's most potent Standardized Formula containing 8% Eurycomanone.

Once your order is placed, your package will be rushed to you by **Amazon**.

From there you'll have a full 30 days to experience the life-changing effects of **YoungBlood**.

At the moment, I'm not sure how long this product will be available to the public.

As I mentioned previously, **YoungBlood** was something that I researched and developed for myself.

I never intended on creating a supplement brand or company.

I've only manufactured 1,000 bottles.

That's enough to share with my friends, family, network and to see if it's something the public wanted, needed, believed in and appreciated.

“ Now, I spend a day on the water and am ready for a night on the town. My energy level is back to where it was 20 years ago..”

I was made aware of **YoungBlood** after observing a friend's dramatic results from taking the herb for a few short months. I started taking the herb in July 2016. I took 1 capsule in the morning and 1 at noon weekdays. A gradual increase in energy becomes significantly noticeable. I am 55 and very active. I enjoy hockey, golf, surfing, water skiing and hiking. Before **YoungBlood** I would be absolutely drained of energy after a day of water skiing or surfing.

-Rich KOSIK 55, BC, Canada

Did you know that upwards of 70% of supplements sold online are private labels?

This means that overnight companies are popping up left right and center. They're sourcing and manufacturing their ingredients overseas and having the warehouse slap a sticker of their brand on the bottle.

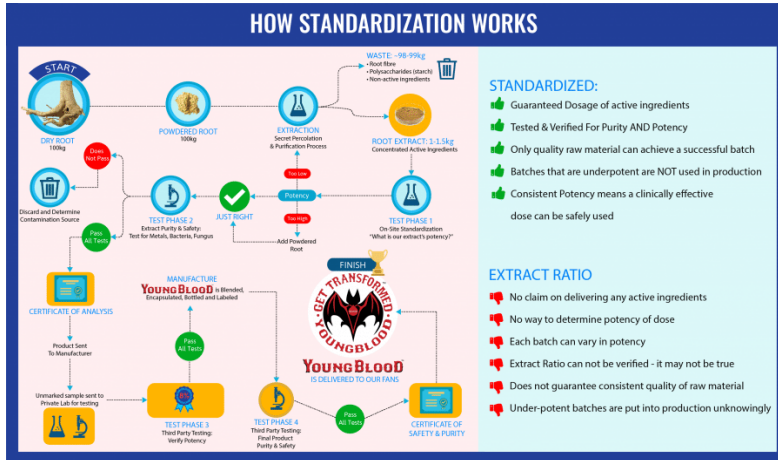

The majority have never even stepped foot in the factories because they don't have to...

YoungBlood isn't about private labeling, cookie cutter branding, paying influencers or models who have never actually used the product.

Don't become a victim of **substandards** fraudulent supplements, or pharmaceuticals.

We're FDA compliant, and Health Canada approved and BSCG (Certified use by professional athletes, Standardized product manufactured in CANADA).

You're getting exactly what you pay for, no sugar pills and no placebo effect.

We are standardized and have the highest potency are are it's the highest quality potency available in the world today. Containing 8% euyrocamone

90 capsults (up to 4 month supply in one bottle)

We literally provide you with up to 128x more eurycamanonmnen then the non standard potency of our competitors.

When we do another run we have to certify again. We have to certifie every batch that runs through every factory.

You've seen the science and you've seen the comparisons of our product over everybody else's.

Order right now!

Do it even if you're on the fence!

Do it even if you think it's too good to be true!

You Change your life around and in just a few days.

It's really that simple.

Up to 128x MORE
Eurycomanone
Per Bottle

Than the
Non-Standardized
200:1 Product

- State of the art techniques designed to boost fat burning—without long, boring cardio sessions.
- Every week you'll progress in strength and endurance.
- Each Workout Can Be Done In Under 30 Minutes
- Step-By-Step Photo Workout Description
- No Machines Required
- Great For Busy Schedules

[Purchase Link [HERE](#)]

There's never been a supplement like this available in the world until now.

You have 2 options:

You can get started with **YoungBlood** and dramatically improve your quality of life without resorting to substandard pharmaceutical drugs, steroids, or sugar highs. You can have a life full of energy, passion, enthusiasm, strength and mental clarity.

Or

You can go on living your life how you've been living it. Putting things off until later (knowing later will never come)

Get to a point where the pain is so unbearable that you have no option but to do act on it.

But..... there might not be a quality natural supplement like **YoungBlood** ever again once it's gone.

Let' Recap

"Testosterone is an essential hormone for both men and women. It affects your bones, muscle growth as well as facial and body hair growth, but testosterone also determines your sex drive, fertility, red blood cell production, and even your mood".

You can create the fountain of youth from within. You just didn't know it!

When you take **YoungBlood**:

- You Can Force your hormones to communicate and produce more testosterone (naturally) so that you can pack on more muscle and dramatically improve your strength.
- You Can completely obliterate fatigue, exhaustion and low energy (You'll breeze through life, conquering everything in your path!)
- You Can block the conversion of testosterone to estrogen so that you can elevate your testosterone levels without the adverse health risks associated with high estrogen levels in men.
- You CAN increase your Testosterone without the adverse side effects of steroids... heart attack, stroke, infertility, acne, and aggression!
- You COULD shield testosterone from SHBG (the sex hormone binding globulin preventing us from feeling young, energetic, strong).
- You COULD reduce cortisol exposure by 16% so you can reduce stress, boost your mood and improve your immune system.
- You will benefit from the muscle building and fat loss effects of "Eurycoma" (You can skip hours upon hours at the gym- Here's all you need to do 3 times a day. The secret to consistently getting results, day in and day out)

WEASEL WORDS FOR THIS SECTION

YOUNGBLOOD IS CLiinically Proven to - TAKE IT right off the label

THEN
